

explore

An Educational Funding Foundation

OUR MISSION

Explore empowers educators to revolutionize experiential learning for the visionaries of tomorrow.

89%

of adults surveyed credit educational trips with a lasting impact on their career success.

40%

of teachers surveyed could not facilitate field trips due to lack of funding & resources.

59%

of students who attend field trips experience higher grades than when they don't experience trips.

Educational trips and hands-on learning experiences contribute to better outcomes for students in school and beyond.

Our primary goal is to fund 100% of teacher proposals to provide learning experiences for their students. The Foundation also provides support to empower educators in the process of planning and facilitating field trips to encourage more learning experiences each year!

OUR IMPACT

SPONSORSHIP
