PanaBIOS Account Creation

The AU endorsed Trusted Traveler Program platform PanaBIOS hosts digitized end-to-end COVID-19 laboratory test results for travelers. A person intending to travel to an AU Country requiring a Trusted Travel-TT-certificate is expected to take a COVID-19 test from an approved laboratory.

Once the Result reports are released, the traveler will receive an email from admin@panabios.org with their Trusted Travel-TT- certificate as well as a prompt to create a PanaBIOS account.

1

Visit trustedtravel.panabios.org
Create a Trusted Travel account with your:
- First Name
- Last Name
- Email Address
- Dial Code (Area code, eg. US +1)
- Phone Number
- Password

2

Log in with the details used in the account creation via trustedtravel.panabios.org
- Username as the email address
- Password

3

Once your login is successful, view the Traveler dashboard with the following menu to your left:
- Trusted Labs
- Tests (Where you can view your certificate uploaded by Precision Clinical Laboratory)
Please download and save your Test Certificate under tab 'Tests'.

Note: Email Address used on Panabios account creation has to be the same email address you have given the Laboratory during testing.
