

Top 10 – Portfolio Players

These are a combination of “high weekly yield” and “long term stability”. Diversified

The best and simplest approach, as a beginner who doesn’t want to monitor constantly, is to purchase equal shares of each.

Ticker	Avg Share Price (30d)	Avg Dividend Payout (30d)
ULTY	\$30 – \$32	~\$0.45
PLTY	\$33 – \$36	~\$0.55
AMDY	\$31 – \$37	~\$0.45
CHPY	\$53 – \$61	~\$0.45
RDTE	\$26 – \$28	~\$0.25
NVDW	\$34 – \$37	~\$0.50
MAGY	\$40 – \$45	~\$0.30
GPTY	\$31 – \$39	~\$0.28
HOY	\$28 – \$29	~\$0.40
SPYI	\$47 – \$50	~\$0.45 (monthly) Growth
SCHB	\$55 – \$58	~\$0.15 (quarterly) Growth

SPYI & SCHB are used as your growth stocks. Providing gradual increase in NAV (net asset value) to offset any potential (yet unproven) NAV decline in your dividend stocks. This is a critical component of the “balance” aspect of the The Income Flywheel strategy.
