UPVC DOORS & WINDOWS

5-Step Process to Customer Satisfaction

1

Needs Assessment and Solution Recommendation

Our team works closely with you to understand your project requirements, including performance expectations, colour preferences, and glass options. We then recommend the most optimized solution.

Site Survey and Planning

Our survey engineer conducts a thorough site survey to collect precise measurements and assess site-readiness.

2

3

Fabrication and Quality Control

Our partner fabricator, located nearest to your site, manufactures your windows and doors under the strict supervision of our quality engineers.

Delivery and Installation

We carefully deliver and install your windows and doors on pre-planned dates, ensuring a seamless and efficient process.

4

5

After-Sales Support

Our dedicated customer support team is available to address any queries, resolve issues promptly, and ensure your complete satisfaction.

Sliding Window

uPVC sliding windows are a popular choice for modern homes and commercial spaces, offering a blend of functionality, aesthetics, and energy efficiency. These windows are designed to provide a sleek and contemporary look while delivering superior performance.

The GreenFortune sliding series contains 2-track, 2.5-track and 3-track profile options. These designs provide you with the freedom to choose the number of panels with glass and mesh.

Product highlights

- Ultra modern luxurious look
- Multi-chambered design
- 1 mm+ reinforcement thickness
- Multi-point locking system available with single, double and triple glazing

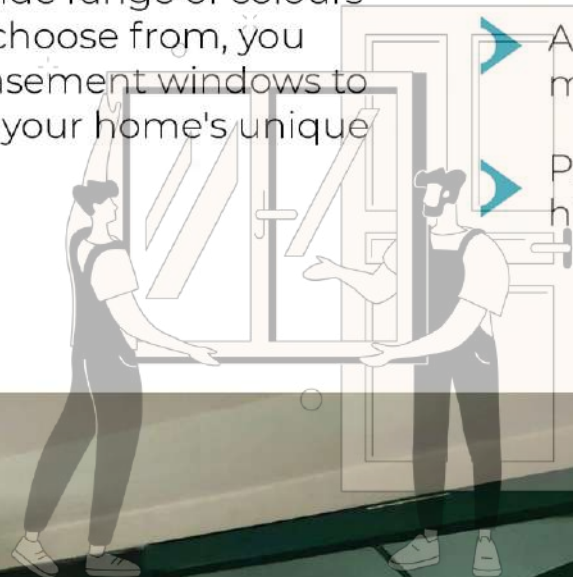

Casement Window

These timeless windows are designed to bring a touch of sophistication to your home, with a sleek and minimalist profile that allows for unobstructed views and effortless ventilation.

Our casement windows offer exceptional durability, security, and weather-tight performance. With a wide range of colours and configurations to choose from, you can tailor your uPVC casement windows to perfectly complement your home's unique style and charm.

Product highlights

- Sturdy and sleek 60 mm frame
- Multi-chambered design
- Advanced locking mechanism
- Precision-engineered hinges

Fixed Window

These sleek and modern windows are designed to be a permanent fixture in your home, providing an expansive glass area that frames the outdoors with precision and elegance.

Perfect for showcasing stunning vistas or floodlighting interior spaces, our fixed uPVC windows are a sophisticated solution for those seeking to blur the lines between indoors and outdoors.

Product highlights

- Picturesque views
- 1 mm+ reinforcement thickness
- Available with single, double and triple glazing

Tilt & Turn Window

These ingenious windows combine the benefits of two operating modes in one sleek and modern design. With a simple turn of the handle, you can effortlessly switch between tilt mode for gentle ventilation and subtle airflow, and turn mode for full opening and easy cleaning.

Our tilt and turn uPVC windows offer unparalleled flexibility, making them perfect for families, homes with limited outdoor space, and rooms requiring easy cleaning.

Product highlights

- Two operating modes
- Sleek design
- 1 mm+ reinforcement thickness
- Multi-point locking

UPVC DOORS & WINDOWS

Slide and Fold Door

These innovative doors are designed to effortlessly slide and fold, creating a vast, unobstructed opening that connects your living space to the outside world.

With a sleek and modern uPVC frame, our slide and fold doors provide a stylish and durable solution for those seeking to blur the lines between home and garden.

Product highlights

- Multi-chambered design
- 1 mm+ reinforcement thickness
- Multi-point locking system
- Available with single, double and triple glazing

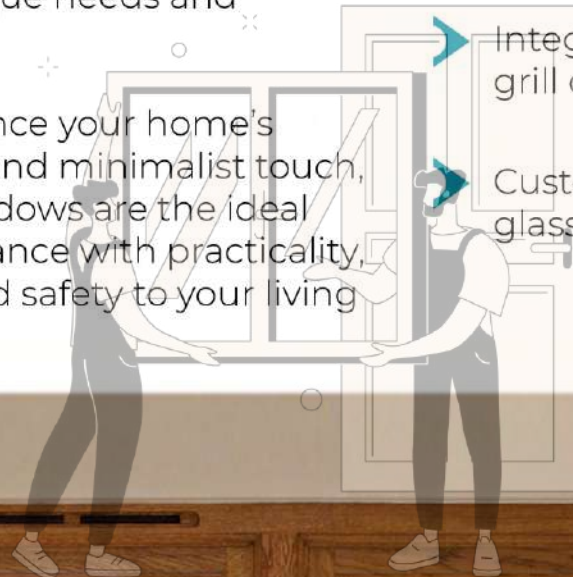

Villa Window

GreenFortune's villa windows add a premium look to your home while offering unmatched security with stylish and durable grills. Our Villa windows are thoughtfully designed with sturdy mesh to protect your space from mosquitoes and other unwanted insects. With a wide range of configurations in colours and sizes, these windows can be tailored to suit your unique needs and aesthetic preferences.

If you're aiming to enhance your home's exterior with a modern and minimalist touch, GreenFortune's villa windows are the ideal choice. Combining elegance with practicality, they bring both style and safety to your living spaces.

Product highlights

- Double casement design
- 1 mm+ reinforcement thickness
- Integrated mesh and grill design
- Customisable colour, glass and hardware

Combination Windows

These innovative windows allow you to combine different styles, shapes, and sizes to create a unique configuration that perfectly suits your home's architecture and your personal taste.

Whether you're looking to add a touch of elegance with a combination of fixed and casement windows, or seeking to maximize ventilation with a mix of sliding and tilt-turn windows, our uPVC combination windows offer endless possibilities for creative expression.

Product highlights

- Customizable size and appearance
- Multi-chambered design
- 1 mm+ reinforcement thickness
- Available with single, double and triple glazing

Bay and Bow Window

These stunning windows project outward from the wall, creating a beautiful bay or bow shape that adds depth, dimension, and visual interest to your home's facade.

Our uPVC bay and bow windows are designed to be functional and flexible. They come in a range of configurations to fit different spaces and styles, from traditional to modern.

Product highlights

- Customizable style and size
- Stylish and sturdy frame
- 1 mm+ reinforcement thickness

Single Hung Window

With only the bottom sash moving up and down, these windows provide a classic, unobtrusive design that won't distract from your home's exterior. Plus, the single hung mechanism makes them incredibly easy to use and maintain, with no complicated parts or hardware to worry about.

Product highlights

- Ultra modern luxurious look
- Multi-chambered design
- 1 mm+ reinforcement thickness
- Multi-point locking system
- Available with single, double and triple glazing

Double Hung Window

With both sashes moving up and down, these windows offer unparalleled flexibility and ventilation control. Open the top sash for a gentle breeze, or open both for maximum airflow.

The double-hung mechanism allows for easy cleaning and maintenance from the inside, making them a practical choice for any homeowner.

Product highlights

- Sturdy and sleek 60 mm frame
- Advanced locking mechanism
- Precision-engineered hinges

Glass-to-Glass Window

These sleek and modern windows feature a continuous glass surface, uninterrupted by bulky frames or obtrusive mullions. The result is an unobstructed view, a sense of openness, and a fluid connection to the outside world.

Whether you're looking to frame a stunning view or simply want to bring more natural light into your home, our glass-to-glass windows are the perfect choice.

Product highlights

- Ultra modern luxurious look
- Multi-chambered design
- 1 mm+ reinforcement thickness
- Available with single, double and triple glazing

With Grill Options

Our windows are available with extensive grill choices to add an extra layer of security to your windows.

We offer window grills of sturdy materials such as iron, aluminium and stainless steel that combine unmatched security with beautiful designs.

Product highlights

- Integrated design
- Extensive design choices
- Sturdy materials such as iron, aluminium and stainless steel

Arch Window

Make your space more sophisticated and elegant with our Arch Window designs. These stunning windows blend classic curves with modern strength, using clear toughened glass for both beauty and safety.

With a graceful arch and minimal frame lines, the design maximizes natural light and creates a sense of openness. Perfect for living rooms, entrances, and feature walls, our Arch Windows turn ordinary spaces into architectural highlights

Product highlights

- Iconic arch-top design for a premium look
- 5mm clear toughened glass for enhanced safety
- Durable uPVC frames with multi-chambered strength
- Smooth Espag handle for secure locking

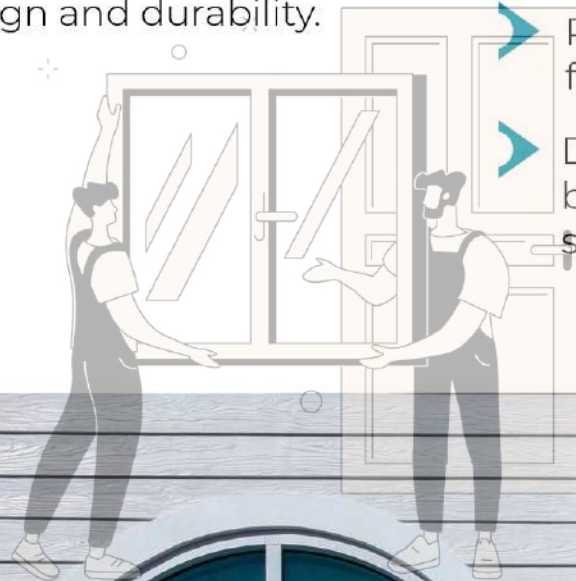

Arch Window - Georgian Bars

Our Arch Windows with classical Georgian bars will add classic charm. The 20mm bars create a classic grid pattern, giving a refined look while preserving the strength of toughened glass.

Perfect for colonial, vintage, or modern classic interiors, these windows offer a beautiful blend of design and durability.

Product highlights

- 20mm Georgian Bars for traditional aesthetics
- uPVC frames resistant to weather and aging
- Precision Espag handle for effortless operation
- Designed to combine beauty with enhanced security
