

■ RICH OFF PROMPTS™: Meta Prompt Monetization Mini-Guide

How to Monetize Meta Prompts Using the Learn → Execute → Document → Sell System

Step 1: Learn — Use Meta Prompts as Personal Teachers

Each meta prompt acts like a mini-course. Study the answers and notice how AI connects your skills to business ideas. Rerun prompts weekly with new answers — that repetition builds your entrepreneurial mindset.

Step 2: Execute — Turn the Advice into Action Fast

Don't sit on results. Pick one idea and move. Use free tools like Canva, CapCut, or ChatGPT Free to bring ideas to life. Momentum beats perfection.

Step 3: Document — Build in Public

Screenshot every step. Post what you learn. That's content. You're teaching while doing — the best marketing combo ever.

Step 4: Sell — Package the Proof

Turn your results into sellable assets: mini-courses, prompt packs, templates, or even a challenge. Your experience is the product.

Quick Recap: How to Monetize These Meta Prompts

Meta Prompt	What It Teaches	What You Can Sell
