MAIN PROMPT

Uploaded subject in an extreme close-up luxury editorial portrait, face centered and tightly framed from forehead to upper chest, wearing a fully encrusted silver crystal hood and matching crystal neck covering. Thousands of tiny rhinestones and mirror-like stones are packed densely across the fabric, sparkling under harsh direct flash with sharp starburst reflections. Preserve the uploaded subject's exact face, skin tone, facial structure, nose shape, lips, freckles, beauty marks, natural skin texture, and expression. Hot pink hair peeks from underneath the crystal hood with glossy sculpted bangs swept across the forehead, separated slightly like wet-look editorial styling. The subject wears dramatic narrow cat-eye sunglasses completely outlined in large silver rhinestones, black tinted lenses, sharp lifted outer corners, and high-fashion diva energy. Add a small silver nose ring, glossy nude-brown lips, dewy reflective skin, visible pores, natural shine, and a small heart tattoo under one eye. The expression is calm, serious, expensive, slightly intimidating, with relaxed lips and direct camera presence. The hood should feel like a couture crystal balaclava mixed with a jeweled medieval coif, fully wrapping the head, jawline, neck, and shoulders. Add dangling crystal teardrops and deep ruby-red gemstone accents along the lower hood and collar, scattered like precious jewelry. Lighting: harsh luxury direct flash photography against a pure black background, polished like a magazine cover. Add realistic lens sparkle, diamond flares, specular highlights, and tiny rainbow reflections. Camera: ultra-realistic DSLR beauty portrait, 85mm lens, f/5.6, high-resolution studio flash, tight crop, frontal angle, crisp detail on sunglasses, lips, skin texture, crystals, and hair. Vertical 4:5 editorial crop, magazine cover quality, chrome diva, couture armor, rich-girl alien energy.

NEGATIVE PROMPT

Do not change the uploaded subject's identity. Do not smooth skin into plastic, remove freckles, change hot pink hair, make the face symmetrical, alter the nose ring, make the sunglasses plain, add extra people, add a busy background, turn the hood into fabric without crystals, blur the crystals, use cheap costume glitter, distort the mouth, over-enlarge eyes, use cartoon/anime/waxy skin, add messy text, logos, or watermark.

Preserve the uploaded subject's exact facial identity, skin tone, facial structure, lips, nose, eyebrows, cheek shape, freckles, beauty marks, nose ring, heart tattoo, and natural skin texture. The subject wears a dramatic violet-silver crystal couture headpiece shaped like a jeweled lace helmet, covering the top of the head in sculptural scalloped panels. Densely encrust the headpiece with purple, silver, lavender, and chrome rhinestones arranged as pointed gothic arches, dripping jewel shapes, and open cutout sections that reveal bright hot pink hair underneath. The hot pink hair is slicked and glossy at the front with sculpted swoops while the back forms a vivid curled low ponytail visible behind the ear. Add oversized sharp cat-eye sunglasses with black tinted lenses and exaggerated pointed corners, fully outlined in purple crystal rhinestones. The frame must look handmade, heavy, expensive, and theatrical with intense flash reflections. The outfit is a matching full crystal bodysuit or armor-like couture top covering the neck, shoulders, chest, and arms in densely packed violet, silver, and lavender rhinestones. Add scattered deep ruby-red gemstone accents embedded like dark blood-red jewels. Include a glossy black sculptural collar or curved neck ring at the base of the neck for futuristic armor energy.
