Create an ultra-realistic luxury dressing-room mirror selfie inside an expensive private boutique closet. The subject is seated gracefully on a soft teal velvet bench, legs crossed, wearing an elegant ivory draped mini dress with structured cap sleeves and soft folded fabric around the waist. Her hair is platinum blonde, slicked into sculpted finger waves at the front with smooth shoulder-length styling. Keep The Aesthetic Moving

Two guiding master prompts for building new content without copying the same image.

MASTER PROMPT 01

BUILDER

Use the uploaded adult female subject as the only identity reference. Preserve her exact face, skin tone, freckles, tattoos if visible, body shape, and expression. Create a hyper-realistic luxury lifestyle scene built around private access: a designer boutique, hotel suite, jet cabin, museum gallery, or personal styling room. Use cream, black, gold, emerald, navy, marble, velvet, glass, champagne, receipts, garment bags, shopping bags, jewelry trays, and direct flash. Make the scene candid but expensive, slightly messy but controlled, like evidence from a rich-girl editorial diary. 35mm or 28mm lens, realistic skin texture, believable shadows, sharp accessories, no cartoon finish.

MASTER PROMPT 02

BUILDER

Create a new #iTgirlLIFE image in the same ultra-realistic aesthetic without recreating any reference exactly. Choose one luxury location, one clear action, one emotional mood, and one signature object: phone flash, invoice, sunglasses, champagne flute, shopping bag, or museum artifact. Style the subject in designer-inspired ivory, emerald, black leather, satin robe, or white jet outfit. Add realistic clutter, reflected surfaces, polished lighting, and camera logic. Keep anatomy natural, hands clean, text minimal, and no duplicate phones or impossible reflections.
