

# Paintings For The People

Are you an organization, small business, or public space looking for art?

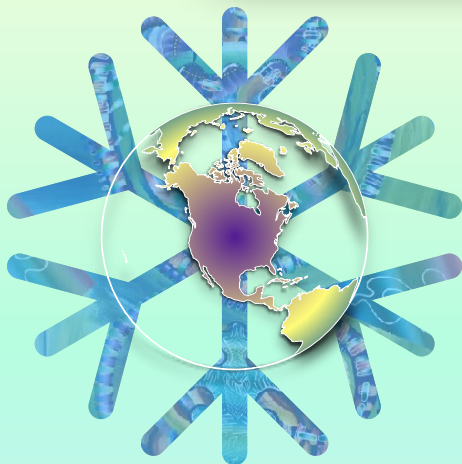

Paintings For The People is free art adoption program. The mission of this program is to share art with my community. Paintings For The People will focus on placing Unus Mundus Art in meaningful locations. The distribution process is intended to create long term homes for art in places that may otherwise not be able to afford to do so.

As much as I appreciate opportunities to show my work, the gallery is not my ultimate goal. I want my paintings to be used, seen and accessible to all. My art is created in honor of connecting hearts across time, space, and culture.

I believe that art can deeply transform the vitality and energy of our spaces. Art can awaken our senses and inspire change. Art reminds us of our own power and awakens us to the present state. Art challenges us to see past perpetual limits and to dream of a better tomorrow. Art is a language of unity. Art is the friend who can help heal the human soul.

## **Serving Locations in the St. Louis metropolitan area**

- Places supporting health, healing & wellness
- Places supporting recovery & growth
- Places supporting education & learning
- Places supporting the unity & improvement of our city
