

Curriculum Vitae

Forensic Toxicologist

Ed Barley

EDUCATION

California State University, Long Beach	1987 - 1990	<i>B.S. Biochemistry</i>
University of California, Riverside	1986 - 1987	Biomedical Studies

PROFESSIONAL WORK HISTORY

Forensic Toxicologist | **2013 to Present**

Self-Employment (no laboratory work performed after my retirement)

Toxicology Consultant
Toxicology Expert Witness

Criminalist | **1991 to 2012**

Los Angeles County Sheriff's Department - Scientific Services Bureau

Forensic Alcohol Unit (Senior Criminalist)
Controlled Substance Unit (Senior Criminalist)
Clandestine Laboratories Unit (Senior Criminalist)
Toxicology Unit (Criminalist)

ONGOING PROFESSIONAL DEVELOPMENT

American Academy of Forensic Sciences (AAFS)

AAFS Connect is the hub of digital forensic science content provided by the American Academy of Forensic Sciences. AAFS Connect hosts conference workshops, presentations, webinars, educational training, and other resources.

Society of Forensic Toxicologists (SOFT)

SOFT Learning Center, Keeping up to date in the field of forensic toxicology with live webinars and courses.

The International Association of Forensic Toxicology Consultants (IAFTC)

To foster a collaborative community of forensic toxicology experts dedicated to advancing the application of scientific knowledge and expertise in the field of forensic toxicology. We strive to ensure that forensic toxicology evidence is presented in a clear, comprehensible, and scientifically sound manner in legal proceedings.

The Center for Forensic Science Research & Education

Online forensic education that is meant to bridge the gap between forensic practitioners and the forensic community. Webinars, symposia, workshops, and live virtual conferences keep the forensic community on the cutting edge of the latest trends, techniques, and equipment driving forensics forward.

ONGOING PROFESSIONAL WORK EXPERIENCE

Toxicology involves understanding the adverse effects of drugs and other chemicals on the human body, especially the effects on biological systems. **Forensic Toxicology** involves the application of toxicology in the application of law or in medicolegal context. The field of Forensic Toxicology involves three main sub-disciplines: postmortem, human performance, and drug testing.

My role as a Forensic Toxicologist, I have been qualified to testify in the areas of postmortem toxicology, human performance toxicology, and drug testing. My testimony has included the topics of driving under the influence of alcohol or drugs, analytical testing methods, postmortem toxicology, human performance toxicology, NHTSA's Standardized Field Sobriety Testing, breath alcohol testing with infrared and fuel cell technologies, blood alcohol testing, reverse extrapolation and forward extrapolation of alcohol levels, drug recognition expert evaluations (DRE), drug and alcohol analytical testing procedures, and chain of custody.

My role as a Forensic Toxicologist, I testify in both Civil and Criminal matters relating to driving under the influence of drugs and or alcohol, homicide, and other violent non-driving related crimes. I currently have testified over 700 times on behalf of the prosecution and defense primarily within the Criminal Courts of California and limited testimony outside of California. My California testimony has been in the following Counties: Alameda, Bakersfield, Contra Costa, Fresno, Humboldt, Imperial, Kings, Los Angeles, Marin, Mariposa, Monterey, Napa, Orange, Placer, Riverside, San Bernardino, San Diego, San Francisco, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, San Louis Obispo, Stanislaus and Ventura. My testimony outside of California has included the States of Alaska, Colorado, Idaho, Iowa, Wyoming, and Virginia.

My role as a Forensic Toxicologist; I testify in Department of Motor Vehicle's Administrative Per Se Hearings, on behalf of the Department Motor Vehicles and the Respondent over 800 times to date.

My role as a Forensic Toxicologist; I consulted for both civil and criminal attorneys primarily in California, but additionally I have consulted with attorneys from the States of Alaska, Colorado, Florida, Indiana, Kentucky, New York, Nevada, Oregon, Idaho, New Hampshire, Pennsylvania, Washington and Wyoming.

I am on the County of Los Angeles Superior Court's "*Panel of Expert Witnesses*"

I am a presenter in the area of Forensic Toxicology Studies for Minimum Continuing Legal Education (MCLE)

ONGOING PROFESSIONAL ASSOCIATIONS

The International Association of Forensic Toxicology Consultants (IAFTC)
American Academy of Forensic Sciences (AAFS)
Society of Forensic Toxicologists (SOFT)

PROFESSIONAL TRAINING & EXPERIENCE

–Borkenstein Drug Course on Effects of Drugs on Human Performance–

The Center for Forensic Science Research & Education;
ABFT for 7.5 contact hours, 31 hours of content [Virtual] (SEP 2025)
Highlights from the training below

The Drug Recognition Expert (DRE) Program

Kyle Clark, International Association of Chiefs of Police

The Drug Recognition Expert (DRE) Program: Validation Studies

Douglas Beirness, PhD, Canadian Drug and Alcohol Research Team, Ottawa, ON;

Principles of Pharmacology and Drug Effects – Introduction/Review

Lionel Raymon, PhD, Uptake, Inc.

Principles of Pharmacology and Drug Effects – Cannabinoids

Lionel Raymon, PhD, Uptake, Inc.

Cannabis: Effects on Human Performance and Behavior

Marilyn Huestis, PhD, Huestis and Smith LLC, Severna Park MD

Cannabis: Effects on Human Performance and Behavior- Driving Simulator Research

Nathalie Desrosiers, PhD, Royal Canadian Mounted Police, Ottawa, ON, Canada

On Road Driving Studies: Cannabis

Jan Ramaekers, PhD, Maastricht University, the Netherlands

Principles of Pharmacology and Drug Effects – Benzodiazepines and CNS Depressants

Lionel Raymon, PhD, Uptake, Inc.

Legacy and Designer Benzodiazepines: Effects on Human Performance and Behavior

Mandi Mohr, MSFS D-ABFT, The Center for Forensic Science Research and Education, Horsham, PA

CNS Depressants: Z-Drugs, Diphenhydramine and Gabapentinoids: Effects on Human Performance and Behavior

Aya Chan-Hosokawa MS, NMS Labs, Horsham PA

Principles of Pharmacology and Drug Effects – Stimulants and Hallucinogens

Lionel Raymon, PhD, Uptake, Inc.

Cocaine and Methamphetamine: Effects on Human Performance and Behavior

Barry K Logan PhD, F-ABFT, The Center for Forensic Science Research and Education, Horsham, PA

CNS Depressants: Antidepressants and Anxiolytics – On-Road Studies

Jan Ramaekers, PhD, Maastricht University, The Netherlands

Principles of Pharmacology and Drug Effects – Opiates

Lionel Raymon, PhD, Uptake, Inc.

Opioids: Effects on Human Performance and Behavior

Karen Scott PhD, Forensic Toxicology Laboratory, UAB, Birmingham, AL

Psychedelics and NPS: Effects on Human Performance and Behavior

Jan Ramaekers, PhD, Maastricht University, the Netherlands

DUID Programs at the National Highway Traffic Administration (NHTSA)

Amy Berning, PhD, NHTSA, Washington DC

-ARIDE Impaired Driver Education -

(16-hour training focusing on ARIDE curriculum)

Torrance, CA (Mar 2019)

Christian Martorana [Presenter]

PROFESSIONAL EMPLOYMENT HISTORY

(Detailed)

- Forensic Toxicologist – (2013 to Present)

My professional experience as a Forensic Toxicologist, I have been qualified in the field of in the areas of postmortem, human performance, and drug testing. My testimony has included, driving under the influence of alcohol or drugs, analytical testing methods, postmortem toxicology, human performance toxicology, NHTSA's Standardized Field Sobriety Testing, breath alcohol testing with infrared and fuel cell technologies, blood alcohol testing, reverse extrapolation and forward extrapolation of alcohol levels, drug recognition expert evaluations (DRE), drug and alcohol analytical testing procedures, and chain of custody.

My role as a Forensic Toxicologist, I have testified extensively in both Civil and Criminal matters relating to driving under the influence of drugs and or alcohol, homicide, and other violent non-driving related crimes. My role as a Forensic Toxicologist; I have testified the Department of Motor Vehicle's Administrative Per Se Hearings, on behalf of the Department Motor Vehicles and the Respondent.

- Senior Criminalist (Retired 2012) -

Medical Retirement; Service-Connected Disability.

- Senior Criminalist – Forensic Alcohol Unit (2005 – 2012)

My professional experience as a Senior Criminalist with the Los Angeles County Sheriff's Department; included testing around a thousand blood and urine samples for alcohol content, with headspace gas chromatography. Reviewing and co-signing of the blood alcohol analysis of the section's laboratory technicians; including clerical, administrative, and technical reviews of case reports and documentation. Responsible for the maintenance, programing and software installation, configuration, customization, and testing of the Perkin Elmer Clarus 500 gas chromatograph, with headspace attachment.

I have developed and designed crystal web reports and integration of the Perkin Elmer Clarus 500 gas chromatograph with the Laboratory Information Network (LIMS). I assisted in the development and

design of a web database for files and records associated with the Blood Alcohol Section's records website – LASD.org

I have provided training for Deputy District Attorneys, and Public and Private Attorneys in forensic alcohol topics. I have provided training and assisted law enforcement officers in breath analysis with the DataMaster series. I have provided training and assisted law enforcement officers in the calibration of the Alco Sensor IV as required by Title 17 of the California Code of Regulations.

I attended the manufacturers product demonstration of the Lifeloc's FC10 & FC20, Dräger's Alco-Test 7510, and Intoximeters' Alco-Sensor FST & Alco-Sensor Vxl.

I have worked with DataMaster software engineer on the testing of the software configuration, customization, and communication of the DataMaster DMT. I developed and designed crystal web reports for maintenance, accuracy, usage, and subject data logs for the DataMaster DMT.

My training has included "ride along" with law enforcement officers to observe individuals under the influence of alcohol and drugs. I was trained and certified in NHTSA Standardized Field Sobriety Testing.

My role as a Senior Criminalist, I have testified extensively in matters relating to driving under the influence of alcohol and other criminal matters.

– Senior Criminalist – Medical Absence (1999 – 2005)

I was off duty due to a Service-Connected Disability.

– Senior Criminalist –Narcotics and Clandestine Lab Unit (1993 – 1999)

My professional experience as a Senior Criminalist with the Los Angeles County Sheriff's Department; included assignments in the analyses of evidentiary substances (narcotics, steroids, and other drugs) utilizing colorimetric, microscopic techniques, chromatography, and spectrograph.

I have worked on clandestine drug laboratory analysis and responded to active clandestine drugs labs.

I have worked on, repaired and maintained laboratory instrumentation such as gas chromatograph, mass spectra and IR instrumentations. I provided training in analytical methods, instrumentation, and narcotics testing procedures to members of the narcotic section.

I trained law enforcement officers in the manufacturing methods of clandestine drug laboratories. I assisted in the development of new analytical testing methods. I worked with the Toxicology section to co-author a paper on drug detection in urine.

My role as a Senior Criminalist in the narcotic section, I have testified extensively in the areas of narcotics identification, drug effects and the identification of the clandestine manufacturing of drugs.

– Criminalist – Toxicology Lab Unit (1991 – 1993)

My professional experience with the Los Angeles County Sheriff's Department; included the screening of evidentiary blood and urine sample for drugs of abuse. I was responsible for the analysis of blood to determine the presence and quantity of Phencyclidine (PCP). I was responsible for the analysis of blood and urine for controlled substances by enzyme multiplied immunoassay technique (ELSA) and radioimmunoassay technique (RIA).

My training included "ride along" with California Highway Patrol (CHP) to observe individuals under the influence of drugs.

My role as a Criminalist assigned to the toxicology, I testified to matters that related to the testing and identification of drugs in a biological sample, and the effects of the drug on a person.

PROFESSIONAL ASSOCIATIONS

(Past Professional Law Enforcement Memberships)

American Academy of Forensic Sciences (AAFS)
International Association for Chemical Testing (IACT)
California Association of Toxicologist (CAT)
Clandestine Laboratory Investigating Chemist (CLIC)

PROFESSIONAL AWARDS

Los Angeles County Sheriff's Department

Distinguished Service Award (2012)

"Recognition of outstanding efforts in contributing to the Department's goals, which reflect a high degree of personal initiative, regarding the DataMaster DMT project"

Commendation (Multiple Dates)

"Recognition of outstanding efforts in contributing to the Department's goals, regarding forensic alcohol training, alcohol testimony, narcotics training, and narcotic evidence processing."

PROFESSIONAL PUBLICATIONS

"Identification of Phencyclidine Analogs Using Thin Layer Chromatography."
Toxilab News : Winter 1994, Vol. 13.

"LSD blotter case of special interest, Technical Note", DEA Microgram :
January 9, 1993.
