# Welcome To SDG ENTERPRISES

we are dedicated to bringing you the best  
in quality, variety, and value. With a  
carefully curated selection of products,  
we ensure that every item meets the  
highest standards to provide you with a  
seamless product experience.

## Accessories

Tube | Fitting | Silencer |  
Speed Controller | Floating  
Joint | Positioner | Auto  
Switch

## Directional Control Valves

Solenoid Valve 2port, 3port,  
4port, 5port | Mechanical  
Valve | Hand Valve | Air  
Operated Valve 3port, 5port |  
Shuttle Valve | ISO Interface  
Valve

## Actuators

Air Cylinder | Round Cylinder |  
Compact Cylinder | Table Cylinder |  
Guide Compact Cylinder | Stopper  
Cylinder | Double Rod Cylinder | Slide  
Cylinder | Magnet Type Rodless  
Cylinder | Shock Absorber | Clamp  
Cylinder | Air Chuck | Direct Mount  
Cylinder | Rotary Cylinder | Guide  
Cylinder | Positioner

## Aluminum Pipework and Stainless Steel Pipework System

Aluminum alloy piping systems have been widely used in European and American countries to deliver compressed air, vacuum, nitrogen and inert gases. The product has been recognized by many well-known domestic enterprises for its excellent characteristics of corrosion resistance, quick installation, low pressure drop and 100% reuse. The aluminum alloy quick piping system will gradually replace the traditional carbon steel pipeline, which is cheaper for the use unit. Deliver clean gas fluids

## Compressed Aluminum Pipes

Fluid: compressed air, vacuum, nitrogen, inert gas, etc. / Material: ductile aluminum alloy

## Stainless Steel Pipework System

Stainless Steel is a hollow long cylindrical steel used as a conduit for conveying fluids

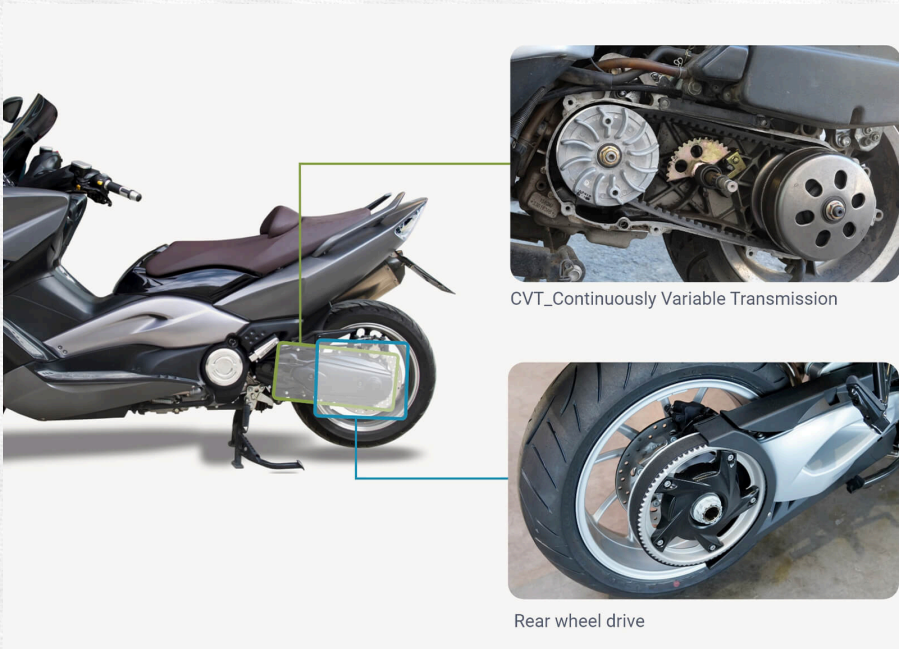

## Tools for compressed pipeline

Quick-connect design. Superior reliability & longevity. Largest fitting configurations available. Modular & reusable. 100% recyclable & non-flammable materials.

## Belts drive motorcycle/scooter wheels.

CVT and Rear Wheel Drive. We are offering two kinds of belt for drive system.

Belt drives will continue to attract attention as alternatives to chain drives.

## MAXSTAR WEDGE V-belt/MAXSTAR WEDGE SUPREME

MAXSTAR WEDGE V-belt and MAXSTAR WEDGE SUPREME have a narrower upper width than the Conventional V-belt. It reduces the belt's own weight and equalizes the tension on the cord, which increases the wedge effect and enhancing grip.

Wrapped type : MAXSTAR WEDGE V-belt  
Raw-edge cogged type : MAXSTAR WEDGE SUPREME

- Automobile and Motorcycle Transmission Belts and Related Products
- Industrial Power Transmission Belts and Related Products
- Conveyor Belts
- Systems and Related Products

**LUBRICANT**

**CLEANER**

**MOULD RELEASING**

Industrial user chemicals  
Automobile repair chemicals  
Car care chemicals

**MADE IN JAPAN**

# Industrial CHEMICALS

Under our management philosophy of valuing customer viewpoints and contributing to a more livable global environment and improved lives for everyone, we're continuing to expand our operations overseas.

## Multi Purpose AntiRust and Lubricant

### Features

- Without unpleasant smell since it is odorless. Adopts 2-way nozzle, bottom-up spray is available.

## Rust Remover

### Features

- Releases rust from corroded and fastened bolt by several minutes penetrating.
- Removing rust by dipping rusted metals into SABES for less than 10 minutes.

# Your Industrial Solutions Journey Begins Here

we not just selling products, we  
provide solutions
