

REAL JOY!

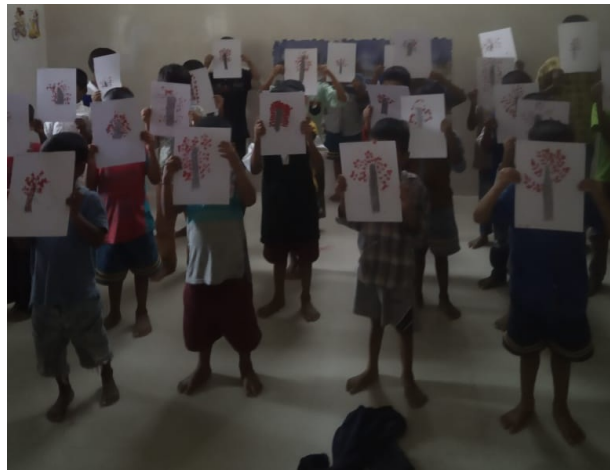

The Budding Artists

After almost a year and a half, we finally returned to the orphanage to conduct a group activity with the children. Our cuddling activities had stopped due to Covid, however our medical support continued.

One of our prominent CSR partners provided us with concept videos where there were instructions for kids to follow to create a painting of a tree. We spent about an hour in each of the rooms and watched the children in awe as they completed the activity. Although we conducted the activity with the older children (not our cuddling babies), the magic was still the same... they are such angels! The kids were very happy to have a new activity.

We hope to continue these activities on a regular basis going forward.

HOSPITAL UPDATES

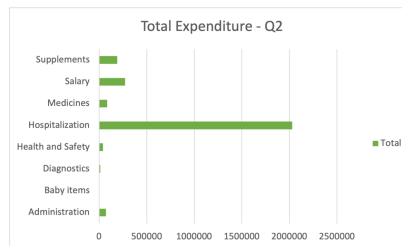

Little V was admitted for seizures. Her case had many complications. She spent close to 3 months in the hospital and needed intervention from the intensive care doctors, endocrinologist, nephrologist, neurologist, and a surgeon before she was given a clean bill of health. Due to long term health issues (some congenital), she required a stomach tube to be placed. Post discharge, she is being cared for by SCH (home for special needs children) where she is doing very well.

Special thanks to **Datla Foundation** for covering the cost of little V's very long stint in the hospital.

RUNNER UPDATES

We also had many admissions for children with Dengue, Pneumonia and gastric issues.

We provided booster Pneumococcal vaccines for the older children at the orphanage along with the regular monthly vaccines for the younger children.

Q2 Expenditure

Medical costs (hospitalisation, diagnostics, and medicines) were close to 21 lakhs!

We spent around 2.7 lakhs on salaries, while supplements cost us around 2 lakhs.

We also spent a little over a lakh on hygiene supplies, equipment, and

accountant fees etc.

THANK YOU!!!
