

We turned 8!

It's been a tough year for everyone due to the pandemic, but we had a busy year with great new projects that will help the children for a long time to come. We couldn't all meet in person, but let's hope we can return to our normal activities later this year.

Medical Camp

We conducted a second medical camp for around 230 children at the main orphanage we support. This comprehensive camp covered areas of Pediatrics, Psychology, Eye, Hearing, and Dental. Further specialists were consulted based on the recommendations of this first round of screening. Diagnostics (blood tests, MRI scan, 2D Echos, Ultra Sounds, etc.) were also done. We are expecting a detailed diagnosis for each child along with a treatment plan. We received detailed reports for all the special needs children covered in the first camp. Recommendations for therapy and corrective measures were given along with supplements for all the children found to have deficiencies.

Staying afloat

The medical camps conducted in December for special needs children, and the second camp conducted in March for other children, were done at short notice. Especially after the first camp, the costs were very high as almost all the 130 special needs children needed MRI/CT scans as well as detailed genetic testing. The latter being very expensive. We reached out to our earlier CSR partners and we are thankful to Cotiviti India Private Limited, Pegasystems Worldwide India Pvt. Ltd. and United Way of Hyderabad for stepping in and helping us cover the costs of the camp as well as other medical expenses like procuring vaccines and supplements for the children.

Preschool Update

The final piece of our preschool project was the library. Thanks to donors via Marina, we were able to create a lovely reading corner. Below you can see our volunteer reading to the children as they wait their turn at the medical camp.

Thank you to Srilatha for the generous donation of wooden learning toys for the children.

A very special shout out goes to youngsters Aditya Khetarpal, Vihan Sharma and Vanya Sharma who donated their books to the library project and passed on their joy of reading. Thank you!

Our Staff

As we enter the second wave of Covid, we had to reduce our activity at the orphanage. Fortunately, our second camp was almost done. Our staff however continues their work at the orphanage taking care of FTT (failure to thrive babies).

Our spending

Our expenses as always were primarily on the medical needs of the children. We spent around **15 lakhs** on hospitalizations, vaccines, and medicines. And an additional **15 lakhs** on diagnostics alone. This expense was due to the tests conducted as part of the first medical camp for special needs children. We spent close to **3 lakhs** on installing a roof to provide a covered space for the children to play as well as for some items for the preschool project. Our other expenses of around **7 lakhs** were for medical equipment, supplements, staff salaries, etc.

We are thrilled to announce the launch of our new website. Please visit and share with friends and family.
