TEACHER

*Hello...*

My name Donna Tabor. I began working at Heart n Hand in January of 2023. I took early childhood education in high school, fell in love with the field and have been in it since then. I love working with children ages two and younger because they are learning so much at this age. I have three girls of my own that keep me busy when I am not at work. I cannot wait to work with all your children!
