ITC Expands Fiber-Optic Services to the City of Ivanhoe (Lincoln County)

Posted on **September 10, 2022** by **Ann Treacy**

[ITC fiber reports...](#)

ITC is excited to announce a fiber-optic expansion to the City of Ivanhoe, Minnesota. Along with ITC's investment in the fiber-optic expansion, this project is funded by the City of Ivanhoe and Lincoln County. To ensure area residents have access to world-class telecommunications services, ITC continues to expand its network. This fiber-optic expansion to Ivanhoe, Minnesota, is another example of ITC's continued commitment to this region.

Tracy Bandemer, ITC's CEO, adds, "Since we completed the initial expansion into rural Lincoln County in 2019, there have been continued conversations about expanding into the City of Ivanhoe. We are excited this project is moving forward. In analyzing Lincoln County, the city of Ivanhoe was the only area without fiber-optics, so this expansion will bring Lincoln County to 100% fiber."

Vince Robinson, Executive Director of the Lincoln County Enterprise Development Corp. further explains, "About seven years ago we set out to become a County that would provide fiber to the premise to all of our residents and businesses. ITC has proven to be a solid partner with the previous joint rural fiber expansion project in the County. Broadband delivered on fiber is the future, and with this partnership of the City of Ivanhoe, the County, and ITC we will ensure that all residents of Lincoln County have equal access to state-of-the-art broadband technology."

ITC is planning to start the construction this Fall. This new fiber-optic connection will offer residents and businesses a reliable, unlimited, Fiber-Fast Internet connection and local phone service. The plan is to plow fiber-optics to every location. To verify your location's eligibility, please

visit www.itcfiberlinc.com . You will have the option to sign up for service with ITC or grant permission for the fiber-optics to be plowed to your location for future utilization. ITC requests that this step be completed by September 15 to maintain the tentative timeline.

ITC is a local telecommunications company providing services to communities in Northeastern South Dakota and Southwestern Minnesota for over 68 years. Currently, ITC provides service to more than 14,000 customers.
