SEASONAL
flowers

Flowers are at their most beautiful when they're in season - full of character, colour, and texture. This guide takes you through the four seasons to show you what's naturally available and at its very best.

Our hope is to inspire you with the abundance of possibilities, while helping you understand how the timing of your wedding or event can shape the flowers we choose together.
From delicate spring blossoms to bold summer dahlias, autumn's rich tones, and winter's refined textures, this guide is designed to spark ideas and give you a sense of what's possible with nature leading the way.

Whenever possible, it's best to use local and seasonal stems but often there is a cross over with seasons and some flowers are available year round.
