This Limited Edition (1,600 produced) 1999 30th Anniversary Daytona 500 Pace Car Trans Am belongs to Don (V.P.) and Carol Ownbey (Former Secretary). They both have been active club members for 4 years now.

Don and Carol purchased their 30th Anniversary at the Fall Autofair 2007, on the back stretch. What makes the 30th Anniv. Special is special embroidered head rests and door panels, white leather seats, blue tinted wheels and 2 blue stripes down the middle of the car. The Daytona 500 cars also received special Daytona 500 door decals and blue stripes down the side. The car now has about 14,000 miles on the clock.

Don and Carol usually show this car at Autofair with the amber yellow pace car lights on top.

My daughter Emily likes your car so much; she wanted me to take a picture of her standing by it at Autofair last fall.

Don and Carol also own a '75 T/A, '76 T/A, '78 T/A and now a '88 Fiero GT to add to the stable.

A memorable moment in this car was last spring Autofair, was bad weather and as Don and Carol were driving home it started to hail! Don whipped into a church parking lot under a big oak tree until it blew over, no damage to the car luckily©
