

## CCPC Readers Ride

Here is a very proud Chris Cooper with his 1<sup>st</sup> car, a 1972 Lemans; Chris got this car before he got his driver's license! Chris at age 17, is one of our youngest members and has been in the club for about a year now, but has actually been an "associate member" with his Dad for about 3 years before that. I remember just a couple of years ago; he was knee high to a grass hopper, but not anymore, he is about 6 foot, he must be drinking those energy drinks!

Chris and his Dad Robert purchased this car in January 2013 at the "Charlotte in January", which is being held this coming weekend, Jan. 10-11<sup>th</sup> 2014.

Chris is the 2<sup>nd</sup> owner of this car, the previous owner lived in Thomasville, PA and obviously garaged the car its whole life and did not drive in the snow.

After Chris purchased the car, he took it to a shop and had the transmission gaskets and seals replaced and had a complete tune-up, now it runs like new.

Very clean interior!

The car originally had the steel wheels with the PMD hub caps, but the day before I took these pictures at the Spring Autofair, he and his Dad scored a refurbished set of Rally II's with new tires in the infield. They installed the wheels on the car and drove it to Autofair the next day. The tires and wheels really added a sporty look to Chris's Lemans! Chris, keep driving that Pontiac Excitement!! NICE CAR!!
