WHO WE ARE:
Mission Statement

AIHG is a firm with strong expertise in the field of planning, constructing, operating, and managing hospital Sterile Processing Departments (SPD) and Operating Rooms. We have provided guidance, expertise, and operations management for many large and small institutions. Facilities have ranged in size from large, nine hundred beds, six thousand plus staff level one trauma, teaching, and research hospitals, to small, rural two hundred bed institutions with less than a hundred staff.

We have a vast array of experience resolving the most complex of issues, from change management to culture integration, Joint Commission pre-inspection, mitigation and resolution of sentinel events, infection control operations, daily operations, creation and development of policies and procedures, department and staff leadership, facility and executive management, mentoring, education, and planning.

With our expansive expertise in SPD management, Interim OR management, Interim director Surgical services to help Improved the effectiveness and efficiency of OR processes, Reduce operating costs, increase revenue, Improve OR access and utilization, Increase surgeon, anesthesia and staff satisfaction. Our staff train, educate, and teach your team the skills needed for leadership, training, and mentorship by transferring our knowledge, skillset, and experience to your staff. Our highly educated, experienced, and credentialed leadership team leads your team. In addition to providing leadership on the front lines of healthcare, we also heavily contribute to the ever-evolving formation of standards and best practices. With a vast array of clinical expertise, several team members are on the forefront of organizations like the WHO (World Health Organization), ISO (International Standards Organization), AAMI ST79, Sterilization, Quality, Protective Barrier, MDEpinet, Augmented Unique Device Identifier (AUDI), and other post market medical device committees revolutionizing healthcare for the 21st century and beyond. Our goal is to bring the best in the Medcial field to help and provide all solutions to Private and government hospitals.
