

Create a Recycled Garden for Earth Day!!

April 22 is Earth Day, so it's a great time to plant a tree, be kind to nature, think about the environment, and find new ways to recycle. For this craft, you'll make a flower garden with recycled cardboard, paper, magazines, and fabric.

Materials:

- Cardboard
- Green marker
- Glue
- Recycled materials (paper, magazines, fabric)

Instructions:

1. Pick a few flower designs. Cut out the templates.
2. Pick out a few patterns from the recycled materials provided.
3. Use the flower stencils to trace outlines on the recycled materials. Cut them out.
4. Glue the flowers onto the cardboard at different heights. Not only do flowers grow to different heights, but you'll be able to fit more on.
5. Draw stems and leaves for the flowers using a green marker.
6. Add the final touches. Draw some bugs buzzing and worms crawling around your flowers.
