

## Dance of a Generation!

Students ask your parent, family member or mentor from an older generation, what was their favorite dance or popular dance when they were younger. Once you determine their favorite/popular dance, share your favorite/popular dance that you are familiar with. Once everyone learns each other's favorite/popular dance of their generation, both of you must demonstrate the dance from the other person's generation. Play a song from the generation's era to make it more fun.

### Popular 1970's Dance Moves:
