**James P. Cameron Future California Lieutenant Governor Calls for Immediate Marshall Law on Sacramento and Los Angeles County by our United States Federal Government.**

*Cameron's campaign slogan — 'Conserve California' is a mission to course-correct California's calamity.*

**SACRAMENTO, Calif. — June 22, 2026** — James P. Cameron (J.P.C.), was sworn to oath as his write-in candidacy was approved by the Orange County Registrar of Voters office based in Santa Ana, Calif.

One day after Summer solstice A serious earthquake decision must be made by our fearless leader President Donald J. Trump. Is he ready to deploy the full take-over of California State Capitol and its most corrupt voting district of new Gotham, Los Angeles. The question is not if but when will both municipalities be handled by A legal and practical mechanism that has been activated 68 times in American history. Balancing the need for order with constitutional safeguards, CA State Capitol and Los Angeles County have shown A long standing disregard for its Citizen wishes as politicians seditiously act like degenerate mobsters.

James P. Cameron is the quintessential Southern Californian calling Orange County home since 1979, while spending more time in Los Angeles than most anyone else on Earth as A multifaceted community business man. When James P. Cameron took his oath to become A Certified "Write-In" Candidate for Lieutenant Governor he was praising the ascension of Spencer Pratt's unifying campaign with support as did President Donald Trump. Yet, J.P.C knew LA constituents are mostly dumb-ass Democrats akin to idiots like junior Senator Adam Schiff whom spoke about the initial 2022 Department of Justice's investigation (under Joe Biden's DOJ) into his close friend Governor Gavin Newsome orbit. "My understanding is that the governor's former chief of staff said the governor had no involvement in what she ended up pleading guilty to. So that's as much as I know of the facts of that." He continued, "I mean, is it out of the realm of possibility that there could be a legitimate investigation here stemming from that, at least?"

The probes center on tax records and the finances of wife's nonprofits (including fire relief) tied to Siebel Newsom, as well as an expanded inquiry stemming from a separate case involving Newsom's former chief of staff. For context, Adam Schiff's other close friend was Ed Buck; highly connected to the DNC and contributed over \$500,000 to Democratic candidates, including infamous figures like Hillary Clinton, Barack Obama, Ted Lieu, Adam Schiff, and Gavin Newsom. Buck now serving 30 years imprisonment achieved prominence as a major Democratic Party donor while living in West Hollywood, California, during which time he killed several black male prostitutes by methamphetamine injection.

If you're still A proud Democrat in 2026 living in California and/or Los Angeles you really need your brain examined, #WalkAway it is not too late to save your own soul. At the least, become A voting independent or libertarian or Green Party.

J.P.C. is A proud Republican, strategically expanding his horizon by moving up into Sacramento with A well planned grass roots "coupe' de ta" of State Capitol and also Los Angeles City Hall. Capturing control of both can only be accomplished with help from our Federal Government's declaration of Marshall Law to isolate the rot. Drastic times call for drastic actions, together Citizens need to revitalize California prior to the 2028 Summer Olympics!

James P. Cameron points out an ironic double standard fact as moron Democrat Eric Swalwell was forced to drop out of the gubernatorial race for illicit accusations yet former CA Treasurer Fiona Ma (who is also A Democrat) is now running for Lieutenant Governor recently had the State of CA pay A \$350,000 settlement to Her former employee for similar proclivities. Where is the #MeToo movement now? James P. Cameron has formerly filed A complaint against Fiona Ma (who should drop out of race immediately) with Secretary of State for discipline actions and Fair Political Practices Campaign. Enough is enough, no means no!

J.P.C. brings a unique perspective to understanding differing voter sentiments among his core audience, including baby boomers, Gen Xers, millennials, and GenZers. Woman are expected to be the strongest turnout for James P. Cameron the eligible bachelor as he was surveyed by League of Woman's Voters CA Educational Fund. Likewise, J.P.C. has been surveyed by Ballotpedia regarding his future direction for California's 4 foremost needs.

At a critical juncture for the Golden State, J.P.C. is a strong proponent of aligning republicans, libertarians, independents, and moderate democrats. With a quad-partisan statewide vision, J.P.C. aims to empower the electorate through unity, accountability and expanded participation.

“This is a crucial time for sound leadership and raising the bar — across the four primary responsibilities of the California Lieutenant Governor.”
