

Take My Life

Song by DJ Nelson, Jay Wheeler, and Tyla Yaweh

I used to believe
The love that we had was forever
But now I can let it go
And I couldn't leave
I've seen in your face that I've lost all your trust

And I can't let it go, I lost my soul
I even tried to take my life
And I can't let it go, I lost my soul
I even tried to take my life

You tried to run some game on me
But I see that love's what's just make-believe
Plenty nights I would stay up to the sunshine
It's not right to my soul, but she's so fine, yeah

But I still need your love anyway when it comes to you, yeah
Aunque parezca fake, yeah
I know you still have my heart
Right here, I know you still have my heart

I used to believe
The love that we had was forever
But now I can let it go
And I couldn't leave
I've seen in your face that I've lost all your trust

And I can't let it go, I lost my soul
I even tried to take my life
And I can't let it go, I lost my soul
I even tried to take my life

I take drugs to waste my time and I fell in love with another time
(I cheated twice, I can't lie)
With a girl I fantasized
(Eat my soul like parasite), but I call her my paradise

I know that you run away from me

But deep down, you just wanna stay with me
Can't let it go, call my phone on a drunk day

What made it worse was in the club I was rolling
I know you stayed the same
I know I'm one to blame, you lost the trust in me

I used to believe
The love that we had was forever
But now I can let it go
And I couldn't leave
I've seen in your face that I've lost all your trust

And I can't let it go, I lost my soul
I even tried to take my life
And I can't let it go, I lost my soul (I lost my soul)
I even tried to take my life

I know you (I know you) still have (still have) my heart
Right here, I know you (I know you, oh) still have my heart
Ah
