March: Money Saving Tips

Bring Your Own Food!

Save on overpriced airport food by packing your favorite snacks from home. Not only will you save money, but you'll also have familiar and tasty options to enjoy during your journey.

Weigh Your Luggage!

Avoid unexpected fees by weighing your luggage at home before heading to the airport. This simple step ensures your bags meet the airline's weight restrictions, saving you from costly surprises at check-in.

Avoid Airport Currency Conversions

Skip the high fees and poor exchange rates at airport currency exchange kiosks. Instead, plan ahead and exchange currency at your local bank or use your debit/credit card for transactions abroad to get better rates.

Whether you're planning a weekend getaway or a grand adventure abroad, travel insurance ensures that you're prepared for the unexpected twists and turns of travel. It's like having a lucky charm by your side, providing reassurance and protection every step of the way.
