Hello Town of Whitmire Waste Customer,

As of Monday December 1, 2025, Spartan Waste is the new waste service provide for the Town of Whitmire.

Your trash collection day is Monday.

Please always place your trash can out the evening prior to your scheduled collection day Sunday night. We are constantly updating our routes- Your collection time of day may change from week to week as we update our routes. You might be an early morning collection one week and an afternoon the next. If your can is not out, it will NOT be serviced until the next Monday.

Our drivers use garbage trucks with arms that reach out and grab your can to empty it over the truck. The can must be out by the road at the end of your driveway/residence where it can be reached and collected by the truck arm. Place can with the front of the can facing the street.

Keep trash can away from any stationary objects such as fences, light mailboxes, parked vehicles, low hanging wires, etc. that prevent arm of truck from emptying can.

Garbage cans should be used for regular household waste ONLY. Please note we cannot accept the following waste items: construction materials, furniture, hazardous or flammable materials, gas cylinders, paint cans, yard waste, oil, and tires. Competitors or personal trash containers will not be serviced.

**PLEASE BREAKDOWN CORRIGATED CARDBOARD BOXES** - If you have corrugated cardboard boxes, please break down the box and lay it flat UNDERNEATH the lid of the trash can. This will give you more room in your trash can for trash. When the truck arm picks up the trash can, the flat cardboard will empty first followed by the trash in your can. Do NOT put flat cardboard on top of the can. We will NOT collect boxes full of trash outside of the can.

All Trash Must Be Inside of Your Trash Can. Please do not put trash on top of the trash can.

Thank you,

Spartan Waste Team
