

VENTURE LIQUIDITY PROVIDERS INC.

TOTAL MARKET SOLUTIONS

OUR VISION

➤ PHILOSOPHY

- Committed to establishing enduring relationships with our clients
- We work jointly with our clients, taking the time to understand their objectives, obstacles, and prospects
- We provide tailored, strategic advice to our clients

➤ EXPERTISE

- Utilizing our unparalleled understanding of public markets, our team interprets patterns, rules, and economic signals to develop plans that manage uncertainty and capitalize on chances
- We go further than just monitoring; we act as experts and planners, providing knowledge that acts as a bridge to strategic and informed actions
- Rely on our team's proficiency to navigate you through market intricacies, aiding in strategic choices that lead to achievement

➤ SERVICES

- We provide a range of services including creating liquidity in markets, assisting with the generation of capital, facilitating mergers and acquisitions, and offering diverse consulting services
- By working closely with our clients, we craft personalized strategies that meet their specific requirements and goals
- Our experts are dedicated to modifying our services to deliver the utmost value and a competitive edge to our clientele

ABOUT US

MARKET MAKING

- Known for our long-standing record of excellence, we have been at the forefront of the market making industry in Canada for many years. In the intricate world of trading today, establishing trust is essential

TRADING SPECIALISTS

- Our team's outstanding trading expertise, deep understanding of the markets, and broad connections within the industry enable us to assist public companies in effectively managing their presence in the marketplace

A.I. AND ELECTRONIC TRADING

- Clients at VLP Inc gain from our distinctive combination of in-house technology, wide ranging networks, and in-depth knowledge of the current trading landscape, which includes the use of advanced algorithmic trading strategies

➤ MARKET MAKING

Stabilizing Market Fluctuations

Managing the market book strategically can decrease fluctuations in stock prices, leading to a valuation that is both precise and equitable

Insights into Market Trends

Delivering up-to-date and pertinent market insights and analysis enables our client's team to concentrate on the most critical aspect; the operations of the business

Proven Performance and History

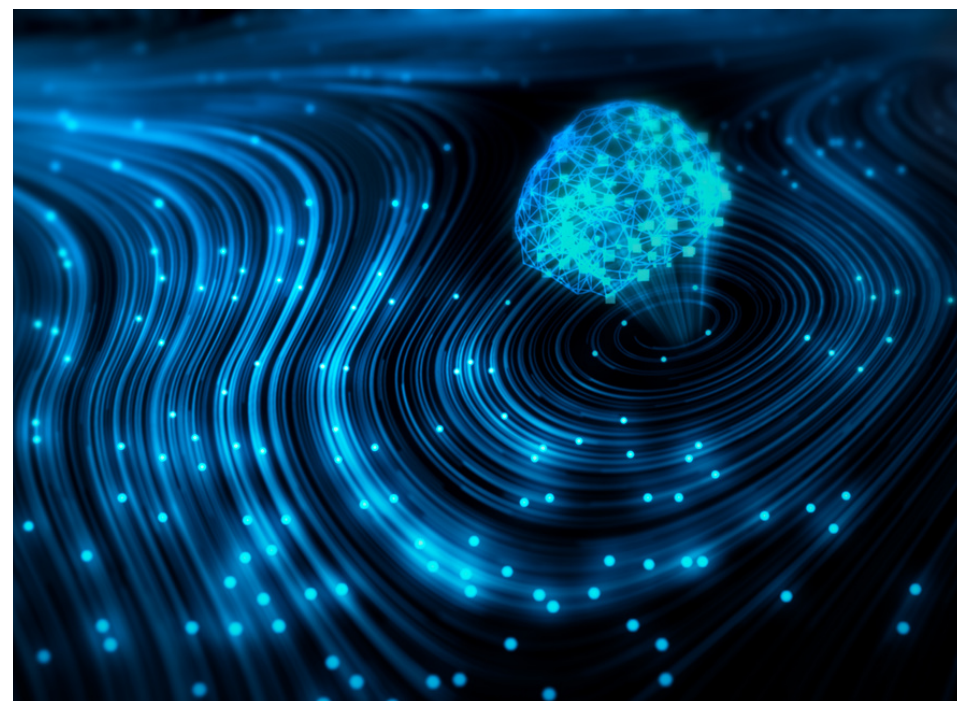

Build trust among current and prospective investors by providing a record of historical performance that promotes investment.

MARKET MAKING

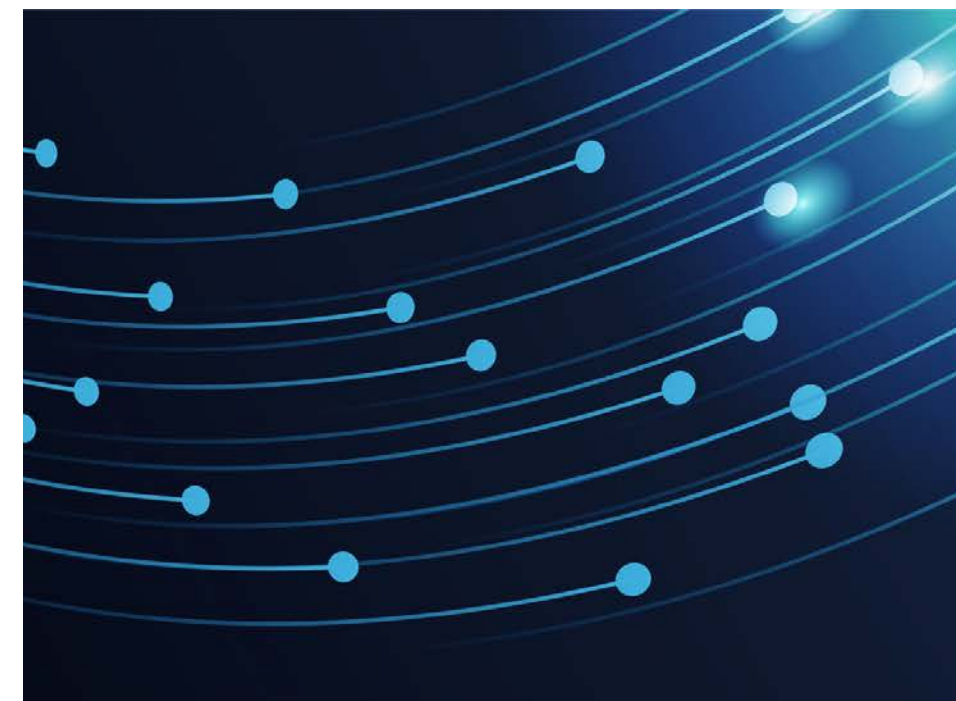

Trade Facilitation

Assisting clients with the implementation of trade orders in a way that minimizes market disturbance, especially for substantial transactions.

Depth and Liquidity

By Offering genuine market depth, we enhance true liquidity, which promotes trading at fair price levels with reduced volatility

Spread Management

Large bid-ask spreads can increase the volatility of stocks and complicate the process of determining their true value. Our targeted spread management helps our clients' stocks to establish their genuine market value

OLLY.AI

ON BEHALF OF ALL PUBLIC COMPANIES

> Built to Protect

- Olly monitors trading algorithms and provides alerts to companies, while also aiding executive teams in comprehending the value derived from internal efforts and collaborations

> Expertise

- Companies will gain access to exclusive data and critical insights that are actionable, enabling them to make more knowledgeable and strategic decisions in the marketplace

> Target Suspicious Trading

- These tools are crafted to serve the interests of public companies, offering them the ability to tap into knowledge and discern where genuine trust and performance lie

> Proprietary A.I. Tools

- Developed for the benefit of public companies to access knowledge and understand where trust and performance truly exists
