

StepKick Caddy® Your Golfing Partner On The Golf Course

Great Accessory To Have In Any Golf Bag

According to the National Foundation of Golf, an average of 2.9 million golf clubs is lost or left behind each year. Wedges, putters (near the green and sand traps), and drivers (used for out-of-bound distance measurement shots) are the most misplaced clubs.

How Does This Happen Playing Golf ?

- Carrying Clubs for approach shot to green to determine the best club to use – middle iron, pitching wedge, gap wedge , sand wedge, lob wedge, putter etc.
- Looking for a ball in the rough or water hazard and bringing a couple clubs to determine what club should be used for the shot.
- Playing a course with restricted areas because of terrain and unable to go on the fairway or green or approach areas with push carts or power carts. So you have to carry extra clubs with you.

Other Golf Experiences the StepKick Caddy® Is Handy

Golf Club Grips

Protect grips from exposure to moisture caused by early morning dew or frost when placed on the ground.

Golf Training

Accessory to mount phone on StepKick Caddy ®for practice shot tracking and video swing analysis apps etc.

Club Management

Effective management of your clubs on the driving range, putting green, and practice areas. StepKick Caddy ®is the perfect caddy throughout your golf experience.

Golfing Socialization

Designed to accommodate a cigar, to enjoy the game while engaging with colleagues or friends Hook also hangs a custom towel, and other tee or ball holders etc.

Health Impacts

An average golfer bends 36 times or more per round picking up clubs while playing golf. **Save Your back, hips, or knees. Less fatigue after a round and more FUN at the 19th hole.**

Golf Experience

Keep track of your clubs to avoid delays searching for misplaced clubs and maintain a steady pace of play during your round.
