REACHERGOLF®
"Extend a golfer's reach when needed."
REACHERGOLF.COM

MAKING A DIFFERENCE IN THE GOLF COMMUNITY

Benefits HHGR & ReacherGolf®

Manage Bending On The Course

Allows Golfers:

- ◆ An extra arm to help reach further when needed.
- ◆ To return to play golf sooner. If injury, surgery or physical therapy is preventing a golfer to play golf.
- ◆ That have permanent or temporary health issues to be able to play golf.
- ◆ That need assistance, the independence to play.

ABOUT US –WHY HHGR EVOLVED

JTR Enterprises, Inc. established in 1990 provides: consulting services within the health & fitness area, government, education and non-profits. As well as other industries utilizing technology integration, e-business strategies and solutions.

HHGR (Helping Hands Golf Resources ©) a new division was launched in 2023 as a result of CEO Jo Boettcher, a health and fitness researcher experiencing health issues with limited mobility. An avid golfer over 60 years, a competitor and golf instructor, Jo was determined to return to playing golf in whatever capacity she could. As part of this process, a research initiative led by Jo took place.

Research Activities & Results

- ◆ A website portal was developed so others could have free access to various resources that were tested and reviewed in various golf situations and physical therapy activities.
- ◆ The development of ReacherGolf® products were designed working with the golf industry, adapted golf programs, PGA Professionals' and the medical community.
- ◆ Evaluating various Medical Reacher's and how technology enhancements; could be used to get back on the course by developing the most versatile golf aid on the market.

Jo returned to the course in less than 5 months, testing ReacherGolf® prototypes and was able to play 18 holes, 4 days a week. HHGR expanded their focus, so other golfers are able to learn to play golf or return to play golf with health issues or limited mobility.

- ◆ Providing the opportunity for anyone to learn to play golf or continue to play golf.
- ◆ To play in whatever capacity they can.
- ◆ To enjoy the socialization benefits the Lifetime Sport Golf provides.

Injuries Are On The Rise In Golf

HHGR provides golfers access to a free research portal. That provides current research studies related to golf injuries and medical studies.

An average golfer playing 18 holes bends a minimum of 108 times.

- ◆ 36 times on the tee box— placing ball on tee and retrieving the tee after ball impact.
- ◆ 72 times on the green marking ball, replacing ball and retrieving ball from the cup and other course locations picking up clubs, rakes etc.

Helping Hands Golf Resources © Vision & Mission

- ◆ To focus on golfers leaving the game due to temporary health issues, or limited mobility preventing them to play golf.
- ◆ To provide support to Adaptive Golfers with more serious health issues or mobility limitations.
- ◆ To encourage managing bending on the course as a preventive health measure. So golfers can extend their experience as a golfer to enjoy all the benefits; physical activity and socialization with others that playing golf provides.

Helpinghandsgolfresources.com

Resources for golfers with health issues or limited mobility to play golf.

Provides a comprehensive collection of information that enables golfers to explore various aspects of the game and resources to help them play Golf in what ever capacity they can.

Adaptive Golf Impacts

Helping Hands Golf Resources © social media platforms. Focus on educating golfers of all ages and abilities that anyone can become an adaptive golfer.

Helping Hands Golf Resources © has become a voice to share with others what is happening in the adaptive golf environment. We offer programs and provide consulting in grant writing for companies and non-profits, as well as marketing strategies to support fundraising for Adaptive Golf initiatives or other Charity Golf Tournaments.
