

Go Bird Go™ — Smart 4G Cellular Bird Feeder

Product Fact Sheet

◆ 🔧 Hardware

- **Design:** Blue-roof solar-powered feeder with durable ABS body, acrylic seed container, and stainless steel perch.
- **Colors Available:** Blue, Red, Yellow, Orange, Pink (limited editions).
- **Dimensions:** ~10" (H) × 6" (W) × 6" (D).
- **Weight:** ~2.5 lbs.
- **Solar Panel:** High-efficiency panel integrated into the roof. ☀️
- **Camera:** Built-in wide-angle HD camera with infrared night vision. 📷
- **Perch:** Reinforced blue bird perch with anti-slip surface. 🐦
- **Storage:** Micro SD card slot (up to 128GB). 💾
- **Connectivity:** Nano SIM slot for 4G LTE with 3G fallback. 📶
- **Materials:** Weather-resistant, UV-stabilized housing for all-season durability. 🌤️

◆ 🤖 Software / AI Features

- **Cloud AI Recognition:** Identifies bird species (cardinals, robins, hummingbirds) in real time. 🔍
- **App Integration:** iOS/Android app for live viewing, recording, sharing. 📱
- **Notifications:** Instant alerts when birds arrive. 🔔
- **Cloud Sync:** Backup photos & clips securely in the cloud. ☁️
- **Firmware Updates:** Delivered OTA for new features. 🔄

◆ 📶 Service & Connectivity

- **Network:** 4G LTE nationwide (AT&T) with 3G fallback.
- **SIM Type:** IoT/M2M Nano SIM for low-data birding.
- **Monthly Data Range:** 100MB–500MB typical per feeder.
- **Management:** Online dashboard to activate, suspend, monitor feeders. 🖥️

- **Scalability:** Supports 1 feeder → 50 → thousands. 📈

⚡ Setup & Activation

- **Pre-Tested in Kansas:** Every unit stress-tested in Kansas test fields. 🌻
- **Plug & Play:** Ships pre-activated with SIM + SD card installed.
- **One-Step Activation:** QR code scan connects feeder to app. 📱
- **No Wi-Fi Required:** Runs on 4G LTE instantly.
- **Assembly-Free:** Arrives fully assembled—just fill, mount, power on. 🛠️

🏭 Kansas Manufacturing & Global Partnerships

- **Assembly:** Final assembly, branding, and activation completed in Kansas.
- **Testing:** Large-scale field testing rows in Kansas. 🌾
- **Quality Standards:** Parts from ISO-certified facilities. ✅
- **Compliance:** Meets FCC & FAA/FTA wireless safety standards. 📄

🌟 Key Differentiators

- **First-Ever Bundled Package:** Ships with 4G Nano SIM, SD card, solar power, AI, and activation included.
- **All-Inclusive:** Works straight out of the box—no Wi-Fi required. 📦
- **Sharper Image–Style Innovation:** Kansas-born creativity blending design, tech, and wildlife care.

Disclaimers

- Specifications subject to change as technology evolves.
- Bird recognition powered by AI; accuracy may vary by species and environment.
- Cellular coverage dependent on carrier availability.

Go Bird Go™ — Connecting People, Wildlife, and Technology.

At Go Bird Go™, we believe technology should bring us closer to nature, not further away. From our 4G LTE smart feeders with AI recognition to our Kansas-sourced premium bird seed, every product is designed to make birding effortless, modern, and inspiring. We are building more than products — we are creating a new way for people to experience wildlife in their own backyards.

Go Bird Go™ Product Line

Smart Feeders • Premium Kansas Seed • All-Inclusive Birding Experience

Discover the world's first **4G LTE solar-powered smart bird feeder**, paired with our **Premium Kansas Blend wild bird seed**. Each feeder is pre-tested, activated, and assembled in Kansas, arriving ready to use right out of the box. Our seed is **sourced and packaged in Kansas**, crafted to attract cardinals, finches, blue jays, and more.

Together, these products create a **complete birding ecosystem** — combining innovation, AI, and premium nutrition to modernize backyard birding for enthusiasts everywhere.
