

# SHOCKWAVE THERAPY

## Now Offering

**A safe, non-surgical treatment performed right in our office.**

This advanced therapy uses powerful acoustic sound waves to relieve chronic, persistent foot and ankle pain. It jumpstarts your body's natural healing response by boosting circulation, breaking down scar tissue, calming inflammation and reducing pain.

## Common Conditions Treated:

- Plantar fasciitis (chronic heel pain)
- Tendinitis (e.g. Achilles, Peroneal, Posterior)
- Metatarsalgia (ball-of-foot pain)
- Painful Scars
- Nerve Pain
- Joint Pain
- Chronic Pain
- and MORE!

## What to Expect:

- Less than 15-minute in-office treatments
- Recommended 3–5 weekly sessions
- You may feel mild, tolerable discomfort during treatment — but it should not be painful

## Benefits:

- No surgery
- No needles
- No incisions
- No downtime
- Performed in-office
