Problem:

Help making business connections by connecting suppliers with entrepreneurs.

Solution:

I develop a web page where it is possible to locate and connect or communicate with the different providers that support entrepreneurs in any branch.

Algorithm

1. At the top of the page is our store, if you have already joined our team you can find your product right there and if not, register and start your business with us.

2. Register with email.
3. Verify that the username is correct.
4. Create your profile by selecting the branch of your product or enterprise:
    a. Where do you want to sell your product or put your business?
    b. Who are you going to sell it to: children, teenagers, adults, etc.
    c. What is it about: clothes, food, sports, instruments, etc.
5. Share email, so that we provide you with the summary of your business.
6. A search is made on social networks and online stores, on the trend regarding the information provided above.
7. In the Marketplace part, share with us about your product or service:
    a. Name of the product or service.
    b. Cost
    c. Description
    d. Email
    e. And a photo of your product or service.

8. We will post commercials on social media and online stores to sell your products.
9. We will contact you so that you do not send your product to our warehouse, and we will sell it. Right there on the page comes the location of our warehouse.
10. We also share information about our company at the bottom of our page.
11. In the lower right corner there is a button where you find a messaging section. For doubts and questions, we also receive proposals for our business.
12. You can find us on our social networks:
    a. Facebook
    b. Instagram
    c. Pinterest
    d. Tiktok
    e. Twitter
13. Our social networks are at the bottom of the page.
