Dowinx was founded in 2013, and has been specializing in design and producing gaming chair for more than 7 years. We have designed a variety of professional gaming chair with the ergonomic function, which is suitable for long-time working or playing.

The company focusing at creating the best gaming chair with professional product lines and skilled technicians. With the purpose of leading healthy working environment, Dowinx keeps crafting better products to improve people's sitting quality. Meanwhile we have set up warehouses overseas and service agencies in USA, UK and AUS to provide better customer service.

"FOR YOUR SATIFICATION, DO MY BEST" is our key word. We expect that bring you a great purchasing experience.

DOWINX LS-6689S CHARI

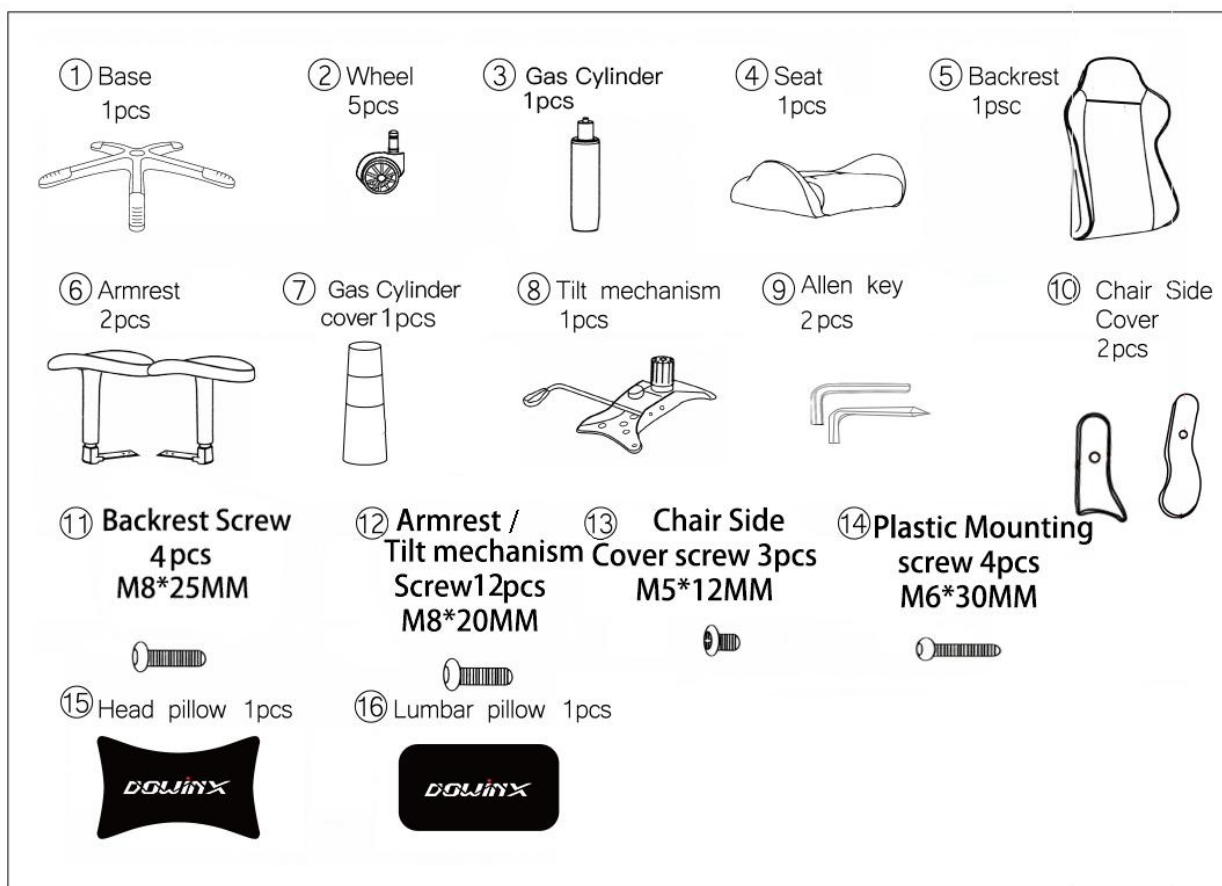

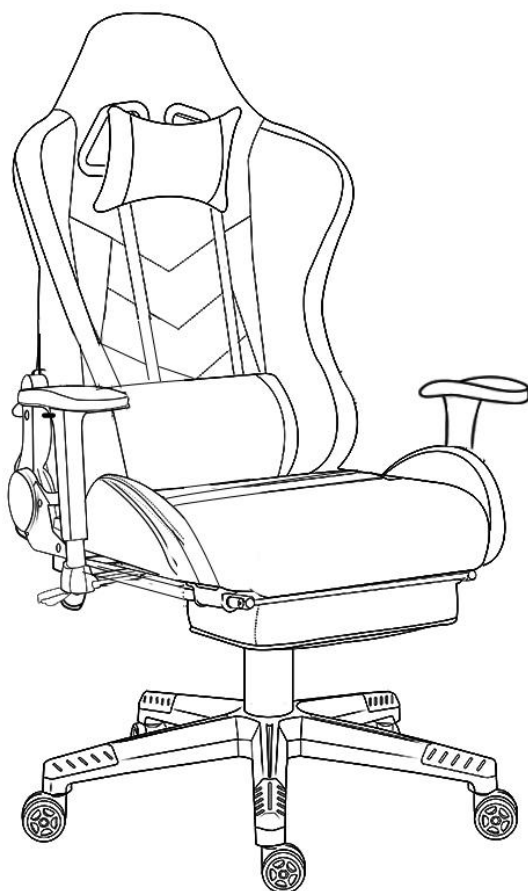

Dowinx gaming chair made of faux-leather which is more durable and environmental friendly. With the ergonomic design, high elasticity sponge stuffed pillow and seat cushion, the chair provides a comfortable experience when when you need to sit on it for hours.

The chair has easy adjustment on every single parts, chair back can recline to 180 degree, and the armrests can be adjusted by its angle and height, the seat height also can be easily adjusted by the high quality gas cylinder. Additionally, the head pillow and lumbar support help relaxing when lie on the chair.

To ensure customer experience, 24/7 customer service will be provided by Dowinx@vip.126.com

Cautions

Right hand

Height handle

Left hand

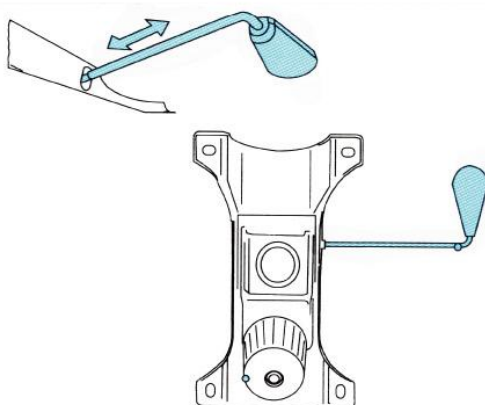

No handle

Tilt Mechanism knob should be located under the front of the seat

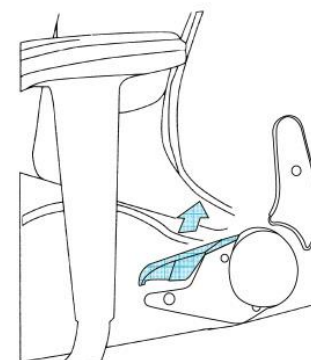

Cautions

Rocking

Put out/push in the lever to
enable/disable rocking function
Twist the knob to adjust tension of tilting

Recline and Lock

When tilting down the backrest to 180 degrees (if vigorously laying down) , you may hear noises of clicking. It's from the gear rotating, not a defect of the product.

You can control the tilt angle by adjust the handle. Pulling up the handle and find the angle position you want, release the handle to lock the tilt.
