

THE Black Book™

We prepared this Directory of over 400 Advertising and Marketing Services in lower Fairfield County to make buying locally easier. Whether you need a full-service agency, a web designer or an illustrator with just the right look, they're all here.

We reviewed the website of each company to verify they are active and indeed local. *Half were actually in Manhattan, India, or elsewhere.*

Providers are categorized by the services offered. Each company is listed under its primary function, with a note regarding ancillary services, plus contact information, year founded, number of staff and industry specialties. See body of tabs for Table of Contents.

Note that there are two primary categories: Agencies and Specialists. An AGENCY is expected to provide high-level advice on marketing strategy and able to plan and manage a comprehensive advertising campaign employing a wide range of traditional and digital media. A SPECIALIST typically is a master of one or several capabilities, such as Graphic or Web design, Branding, Influence, Photography, Location scouting, etc.

For updates see www.EntrepreneurshipFoundation.org/black-book

To add or update a listing, email Roer@EntrepreneurshipFoundation.org

Thank you for buying locally!
