

Newmont[™]

IT Integration Program

GHANA EMAIL MIGRATION
PROJECT

IT INTEGRATION

Simplifying our computing environment

CURRENT STATE

Two different computing environments

- Networks
- Jabber
- Email systems
- Different operating systems and applications

Results in

- Frustration and limited collaboration
- Inefficiencies
- Duplicate systems = higher costs

**LEGACY
NEWMONT**

**LEGACY
GOLDCORP**

IT INTEGRATION

It will get easier...this is what is on the way

- Instant message & call across the organization using WebEx Teams
- One WebEx system
- Everyone using same Office suite
(enhances our ability to collaborate & communicate)
- One email system into the O365 cloud

IT INTEGRATION

Email account migration is planned for Ghana in February

WHAT

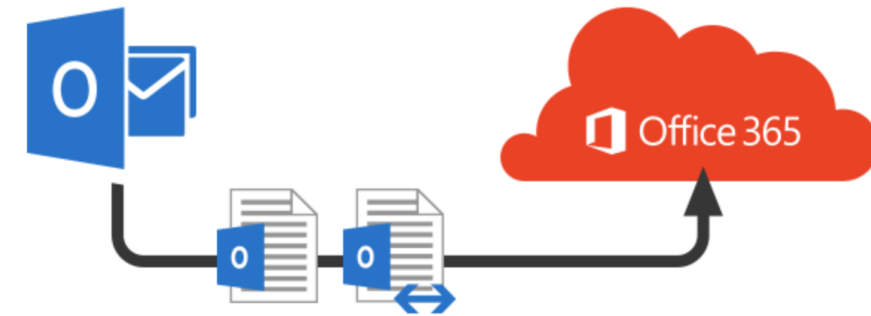

Moving all email accounts from local hosted email servers to the Microsoft Cloud

WHEN

February 17 onwards (will occur in waves)

WHAT'S CHANGING?

- 1. Log into your computer with email (not GID#)**
Still use GID# to log into VPN, Citrix, HP-ALM or SAP GUI
- 2. New webmail link (office.com)**
- 3. Access to OneDrive and Office 365**
Work anywhere, anytime, with anyone and any device!
- 4. Use of Intune as Mobile Device Management tool on corporate devices**
If you have a Newmont mobile phone, you will need to update it to ensure email continues to be pushed - this is a manual process that can take up to an 1hr to complete
- 5. Need to set up Multifactor Authentication (MFA)**
This provides an extra layer of protection & is in accordance with our corporate security policy

Newmont O365 Cloud

<http://O365.Newmont.com>

WHAT ARE THE BENEFITS OF THIS CHANGE

1. Easily access your email & OneDrive files when out of the office (*no VPN required*)
2. Use the full Office suite from any device, anywhere, anytime (*work on the go*)
3. Take advantage of the collaboration features in Office 365
4. Stop worrying about manually backing up your files (*OneDrive has built-in autosave*)
5. Consolidated email system = consistent employee experience (*+ cost savings*)

Our request

Please read your emails from itintegration@newmont.com – they will contain information on:

- Your migration date
- How to sign up for online OneDrive training
- What to do before and after your migration
