

MODERN WORKPLACE

Program overview & update

February 2021

Teck

Modern Workplace Program

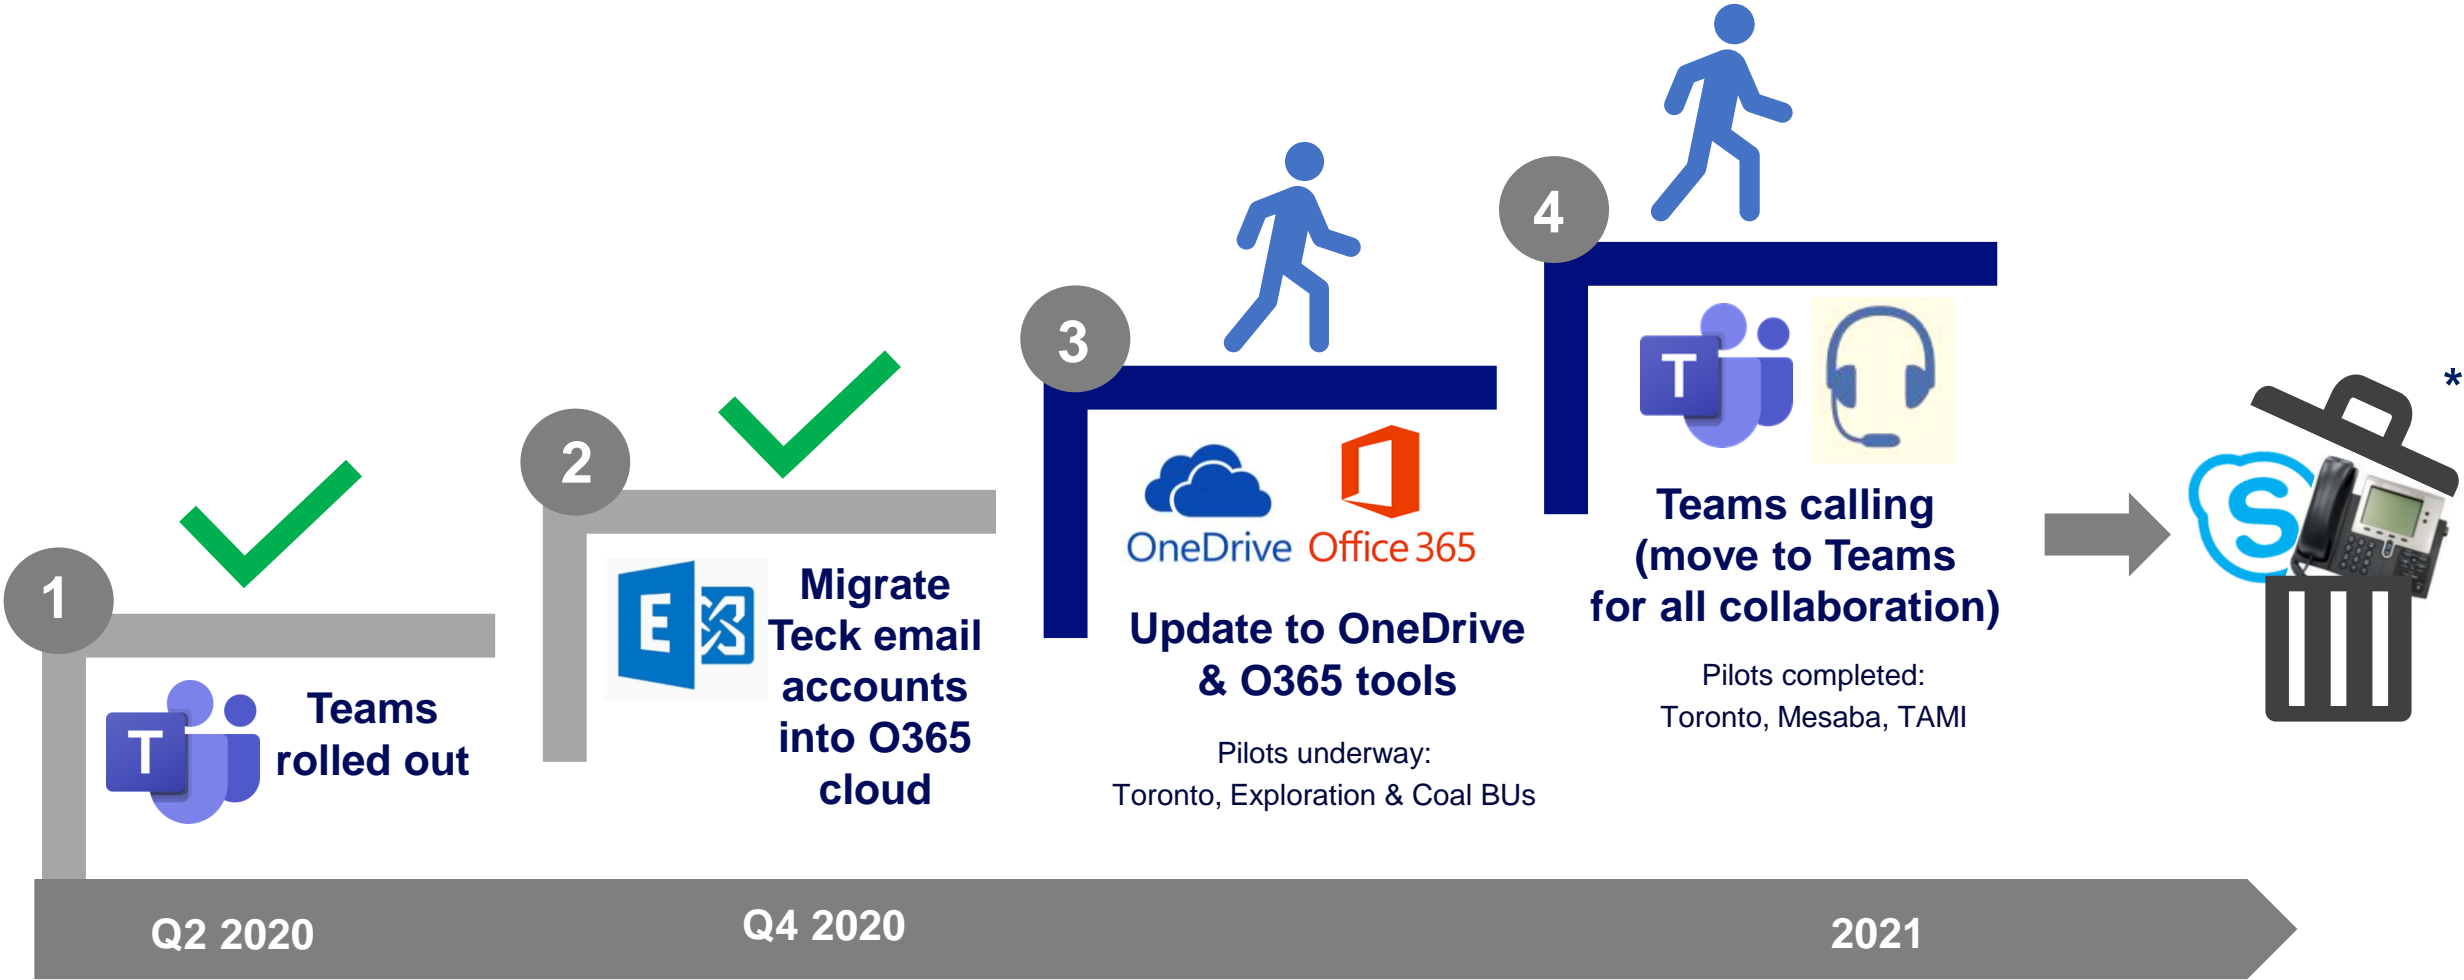

Work anywhere, anytime, any device

- This program will empower people to work in ways that work for them
- Initiated March 2020, scheduled to be complete late 2021
- Shifting to the freedom and flexibility of the **'anywhere, anytime, any device'** modern workplace experience
- Consolidating tools will simplify your experience & deliver time saving improvements to collaboration
- Key remaining program streams
 - Teams Calling
 - OneDrive & Office 365 (O365)

Modern Workplace Program

Our steps to the cloud

* Having Teams Calling available removes need for desk phones at corporate sites
Operations sites will retain Cisco phones – NO CHANGE

Modern Workplace

Teams Calling workstream

What

- Moving calling functionality from Skype to Teams to finish the transition from Skype to Teams
- Removes the need for desk phones in Teck's corporate offices

Why

- Skype is nearing end of life – must be decommissioned

Teams Calling > Teck Offices

Teams Calling > Teck Operations Admin

Teams Calling > Teck Operations

Benefits

- Consolidated toolset = simpler experience
- Enhances remote work for office staff
- Simplified support

What's changing

- Ability to use Teams to call internally & externally for knowledge workers (corporate & site)
- NOTE: Operational Cisco phones will remain in use for operations (no change)

Modern Workplace

OneDrive & Office 365 workstream

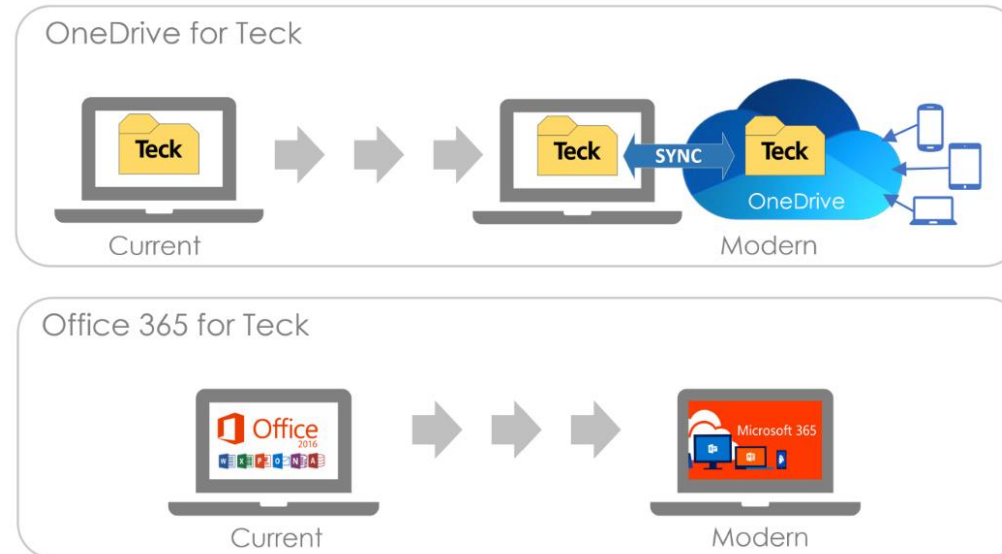

What

- **OneDrive:** syncing of *Documents, Desktop & Pictures* to O365 cloud
- **O365:** Update from Office 2016 to O365 suite of tools (e.g. Word, Excel, etc.)

Why

- Improved security & data protection - OneDrive data is automatically backed up
- Well integrated toolset > seamless experience

Benefits

- O365 tools & files accessible anytime, anywhere & from any device
- Easier, time saving access to files & collaboration
- More intuitive, easy to use
- Simplified support

What's changing

- Evergreen toolset- new feature updates continuously available
- Eventually, move away from personal folders on network drives
- No longer need VPN to access files – OneDrive files & O365 tools available from any device

How are we supporting end users with the changes?

Eureka!

A new self serve site for training, tips & Modern Workplace updates. Available from Teams (upper left corner) or [here](#)

Modern Workplace Cloud Squad
