

Impact Soccer is a new camera-agnostic AI and Computer Vision solution that helps coaches, players, clubs, and academies analyze all their matches automatically, in 1-step! There is no learning required. With Impact Soccer, you can:

**- Identify tactical trends**

Gain insights into your team's strengths and weaknesses, as well as those of your opponents.

**- View 15 match Statistics**

From goals, to 50/50 balls and everything in between, our AI and computer vision provides you with the details you need to analyze and win but without the headache of learning or spending time manually tagging events.

**- Improve training**

Use Impact Soccer's data to develop more effective training programs for your players because you will know what your strengths and weaknesses are.

**- Use any camera**

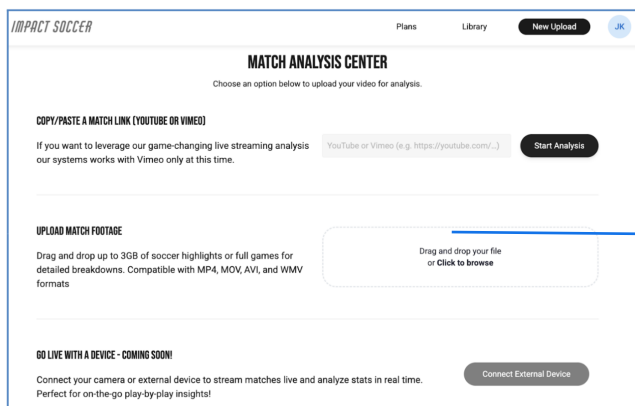

If it's a digital camera (from iPhone to Professional 8k) it makes no difference; we can analyze it all!

**- Live Link (Coming soon!)**

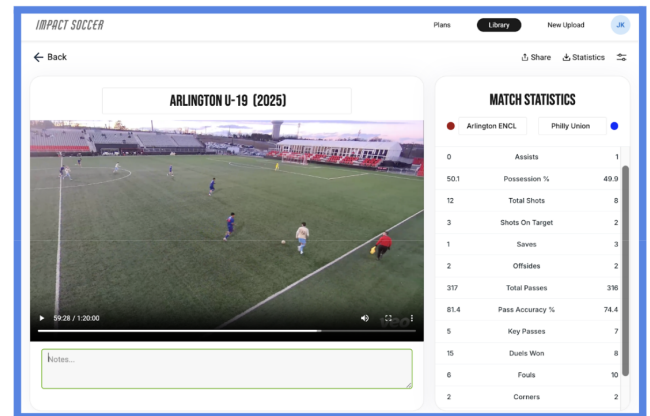

Yep, live stats delivered in seconds to any connected smart device or as a live stream. We know you need answers quickly and waiting till after the match is often, not an option.

## How It Works

Step 1: Load Film

Step 2: It's Done!

Customers Copy/Paste a link or drag/drop the entire video from any desktop. That's it! Go run some errands or take care of your taxes...In roughly 4-6 hours, your match will be analyzed and you'll be emailed when it's finished.

## Benefits of Impact Soccer

**- Save time & money**

Impact Soccer saves time and money by completely automating the process of match analysis.

**- Get more accurate data**

Impact Soccer's AI and Computer Vision technology provides more accurate data than traditional methods of match analysis and there is no learning curve.

**- Make better decisions**

With Impact Soccer's insights, you can make better decisions about player selection, tactics, your competition, and training.

## Contact Us
