

Send him photos of the stuff we are still missing so we can get that done

Liscott decided to bill us \$3,600 to remove snow from the partially built garage. Liscott also decided that we needed to be responsible for making sure the job site was plowed. They took zero responsibility for any of this work.

It will take me a minute to quote the shingle install and see the difference, i will get on it today. Yes it is very common to install later. I will get his name contact info to you

Holly Smith

Rob we are not paying \$3600 in snow removal. You chose to put the trusses in that spot and not on the garage floor. You also didn't tarp it. This was not Ben or I decision. You are the GC and you made this decision which then lead to the trusses needing snow removed and then were damaged. This was not our fault as the home owner nor did we have any say in this. So we will need to come to some agreement on the cost of the snow removal but we are not covering the entire cost.
