WHO IS WCL?

READY FOR A CRYPTO−LIFESTYLE?

WCL Has A Unique System That Makes The Crypto Industry Real, Attractive And More Possible.

- World Class Crypto Exchange Platform
- Special Global Debit Card
- Online Shopping
- Affiliate Companies

You Can Cash Or Shop In A Secure Account With Easy Access And Without Any Restrictions.

WORLD CRYPTO LIFE

ARE YOU READY FOR A CRYPTO-LIFESTYLE?

NO MORE UNUSABLE COINS! EVERYDAY CONVENIENCE!

WHAT IS BLOCKCHAIN?

Blockchain Is A System Of Recording Information In A Way That Makes It Difficult Or Impossible To Change, Hack, Or Cheat The System. A Blockchain Is Essentially A Digital Ledger Of Transactions That Is Duplicated And Distributed Across The Entire Network Of Computer Systems On The Blockchain.

THE EVOLUTION OF BLOCKCHAIN

1.0	2.0	3.0
Bitcoin	Ethereum	EOS, ADA, etc.
Blockchain as a currency	Provide smart contract platform	Decision making and business area expansion
Public distributed ledger, consensus algorithm	Intelligence through smart contracts	Equipped with internal decision-making function
	Implementation of various contracts Distributed application (DApp) that can be used for various businesses can be developed	Technical enhancements
Limitations Low scalability and slow trading speed used in limited areas such as financial transactions. Decision making systems that are difficult to reach consensus	Limitations Decision-making problem Transaction capacity limit	Apply Blockchain Technology government policy, healthcare, transportation, sports/art, Internet of Things (IOT)

NEXT?

FINL is heading for a blockchain that will lead the 3.0 ~ 4.0 generation, overcoming limitations based on understanding of all these things.

INTRODUCING ......

NEXT- GENERATION BLOCKCHAIN MAINNET FINL!

FINLCHAIN

LOW FEES AND SUSTAINABILITY

Low fee (resolve Eth's high transaction fee) Maintain blockchain persistence through high-performance networks

SECURITY

Blockchain created by security experts

FAST SPEED

Blockchain speed corresponding to fast, like real time chat 1,000,000 TPS

SCALABILITY AND SERVICE SUPPORT

Provides APIs for blockchain services and Various DApps. Easy-to-use Smart Contract design

WHAT IS FINL?

In order to solve the problem of the practicality of the existing blockchain, we have made, a blockchain that overcomes the limit of the trilemma of the blockchain with our own models of HRR (hash round robin) and DPOR (delegation reputation proof). Blockchain combining speed-oriented consensus algorithm and high frequency transaction technology based on decentralization technology

HASH ROUND ROBIN

For the first time, a nonpreemptive hash task algorithm is applied to the blockchain technology. Overcoming the limitations of the blockchain by applying the scheduling algorithm used in the operating system to the blockchain technology

DPOR (DELEGATED PROOF OF REPUTATION)

DPOS model created by voluntary participation based on the reliability index of the node called PRR (Peer Reliability Rate)

HIGH SPEED TRANSACTION

Aiming at more than 10,000 TPS per consensus group, 1 million TPS ultrafast node configurations are possible when more than 200 global groups are configured. Quickly explore information chains in blocks and improve responsiveness
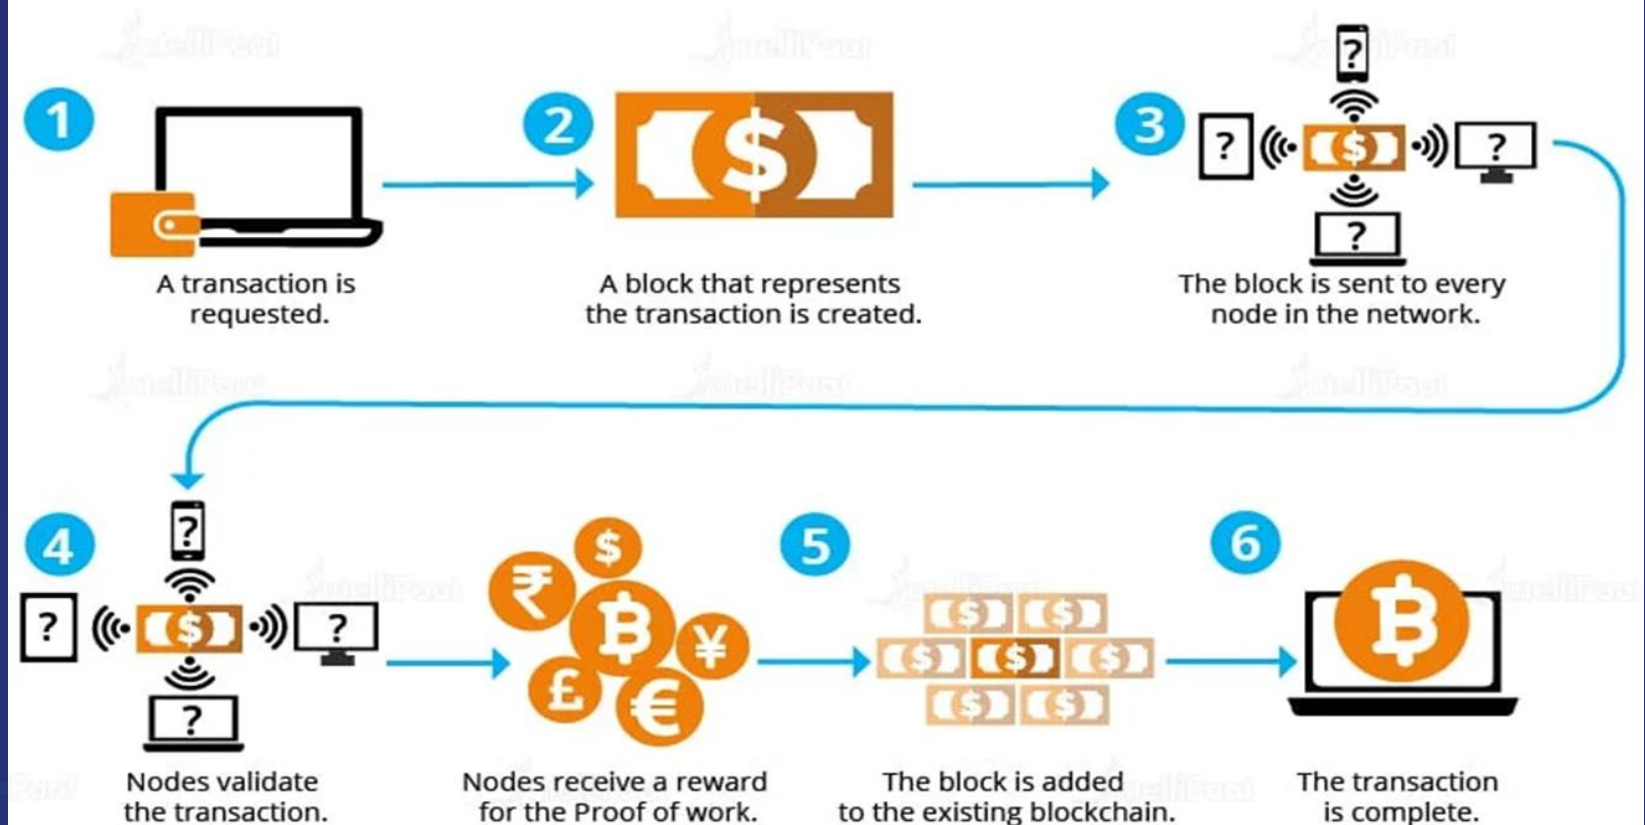

FINLCHAIN

PARTICIPANTS

Node Holders, Vote to create a Majority, once the Majority is attained, the rewards are distributed in regular intervals

WCL Noder's

The WCL Members NODE is an NFT that sits on the FINL Blockchain. It is easily sellable, transferable and willable and begins with a 9 Year Term Limit.

How Do Blockchains Work?

1. A transaction is requested.
2. A block that represents the transaction is created.
3. The block is sent to every node in the network.
4. Nodes validate the transaction.
5. The block is added to the existing blockchain.
6. The transaction is complete.

Nodes receive a reward for the Proof of work.

COLLABORATOR

PARTICIPANTS

Korea, Japan, Australia, etc.
Development and marketing
through global network

FDC (FINL DATA CENTER)

FINL is an FINL that maintains a
high-speed network with basic
participating nodes for fast speed.

Canada

USA

South Korea

Hong Kong

Japan

Australia

INTRODUCING GPOINT

With The Benefits From The Community Such As, Reward Mileages, Affiliated Local Shops, GPoint Coupons And Much More To Be Introduced, The GPoint Population Will Be Expanded Rapidly.
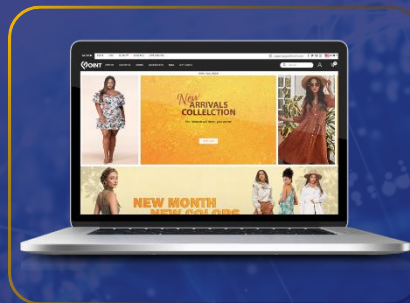

GPoint will satisfy common users, both sellers & buyers, who are reluctant to use
mobile payment in their everyday lives such as, shopping, traveling and so on.

1 GPOINT = 1 USD

INTRODUCING ....

WITH GPOINT MARKET, YOU CAN ENJOY:

The Best of the best 30 products available ONLY in GPoint Market !!!

Up to 50% discount for more than 300 Brand Products !!!

Selected Local Businesses affiliated with Link Mall !!!

More convenient GPoint Gift Certificates !!!

A Variety of Gift Certificates & Cards can be purchased with GPoints !!!

GPOINT AFFILIATE MARKETING

Affiliates Put Their Banner On The GPoint Market Website

AFFILIATE BUSINESS
The affiliate market is growing steadily. Spending only in U.S. the market is expected to rise to $8.2 billion by 2022.

Customers Click The Banners At Gpointmarket.com And Select The Products

CONSUMER SHOPPING
Smartphones are the shopping malls of the millennial age. Consumer shoppers online will increase to 230 million people by 2021 with the U.S. leading the e-commerce market.

Customers purchase products & services with debit cards or GPoints

PURCHASE TRANSACTION
With leveraging your earned GPoints, we make product purchasing online convenient and flexible using GPoint debit card.

Affiliates share their profit with WCL members

PROFIT SHARING
A network of businesses that have the same goals are seeing profits by sharing market products and services from a global scale.
