Who Is WCL?

Ready for a crypto–lifestyle?

WCL has a unique system that makes the crypto industry real, attractive and more possible.

World class crypto exchange platform

Special global debit card

Online shopping

Affiliate companies

YOU CAN CASH OR SHOP IN A SECURE ACCOUNT WITH EASY ACCESS AND WITHOUT ANY RESTRICTIONS.

What Is Blockchain?

Blockchain Is A System Of Recording Information In A Way That Makes It Difficult Or Impossible To Change, Hack, Or Cheat The System. A Blockchain Is Essentially A Digital Ledger Of Transactions That Is Duplicated And Distributed Across The Entire Network Of Computer Systems On The Blockchain.

The Evolution Of Blockchain

| 1.0	2.0	3.0
Bitcoin	Ethereum	EOS, ADA, etc.
Blockchain as a currency	Provide smart contract platform	Decision making and business area expansion
Public distributed ledger, consensus algorithm	Intelligence through smart contracts	Equipped with internal decision-making function
	Implementation of various contracts Distributed application (DApp) that can be used for various businesses can be developed	Technical enhancements
Limitations Low scalability and slow trading speed used in limited areas such as financial transactions. Decision making systems that are difficult to reach consensus	Limitations Decision-making problem Transaction capacity limit	Apply Blockchain Technology government policy, healthcare, transportation, sports/art, Internet of Things (IOT)

NEXT

FINL is heading for a blockchain that will lead the 3.0 ~ 4.0 generation, overcoming limitations based on understanding of all these things.

Introducing

Next- Generation Blockchain Mainnet Finl!

Fast speed

Blockchain speed corresponding to fast, like real time chat 1,000,000 TPS

Low fees and sustainability

Low fee (resolve eth's high transaction fee) maintain blockchain persistence through high-performance networks

Scalability and service support

Provides apis for blockchain services and various dapps. Easy-to-use smart contract design

Security

Blockchain created by security experts

FINL CHAIN

What Is Finl?

In order to solve the problem of the practicality of the existing blockchain, we have made, a blockchain that overcomes the limit of the trilemma of the blockchain with our own models of HRR (hash round robin) and DPOR (delegation reputation proof). Blockchain combining speed-oriented consensus algorithm and high frequency transaction technology based on decentralization technology

FINLCHAIN

Hash round robin

For the first time, a non preemptive hash task algorithm is applied to the blockchain technology. Overcoming the limitations of the blockchain by applying the scheduling algorithm used in the operating system to the blockchain technology

DPOR (delegated proof of reputation)

DPOS model created by voluntary participation based on the reliability index of the node called PRR (Peer Reliability Rate)

High speed transaction

Aiming at more than 10,000 TPS per consensus group, 1 million TPS ultrafast node configurations are possible when more than 200 global groups are configured. Quickly explore information chains in blocks and improve responsiveness
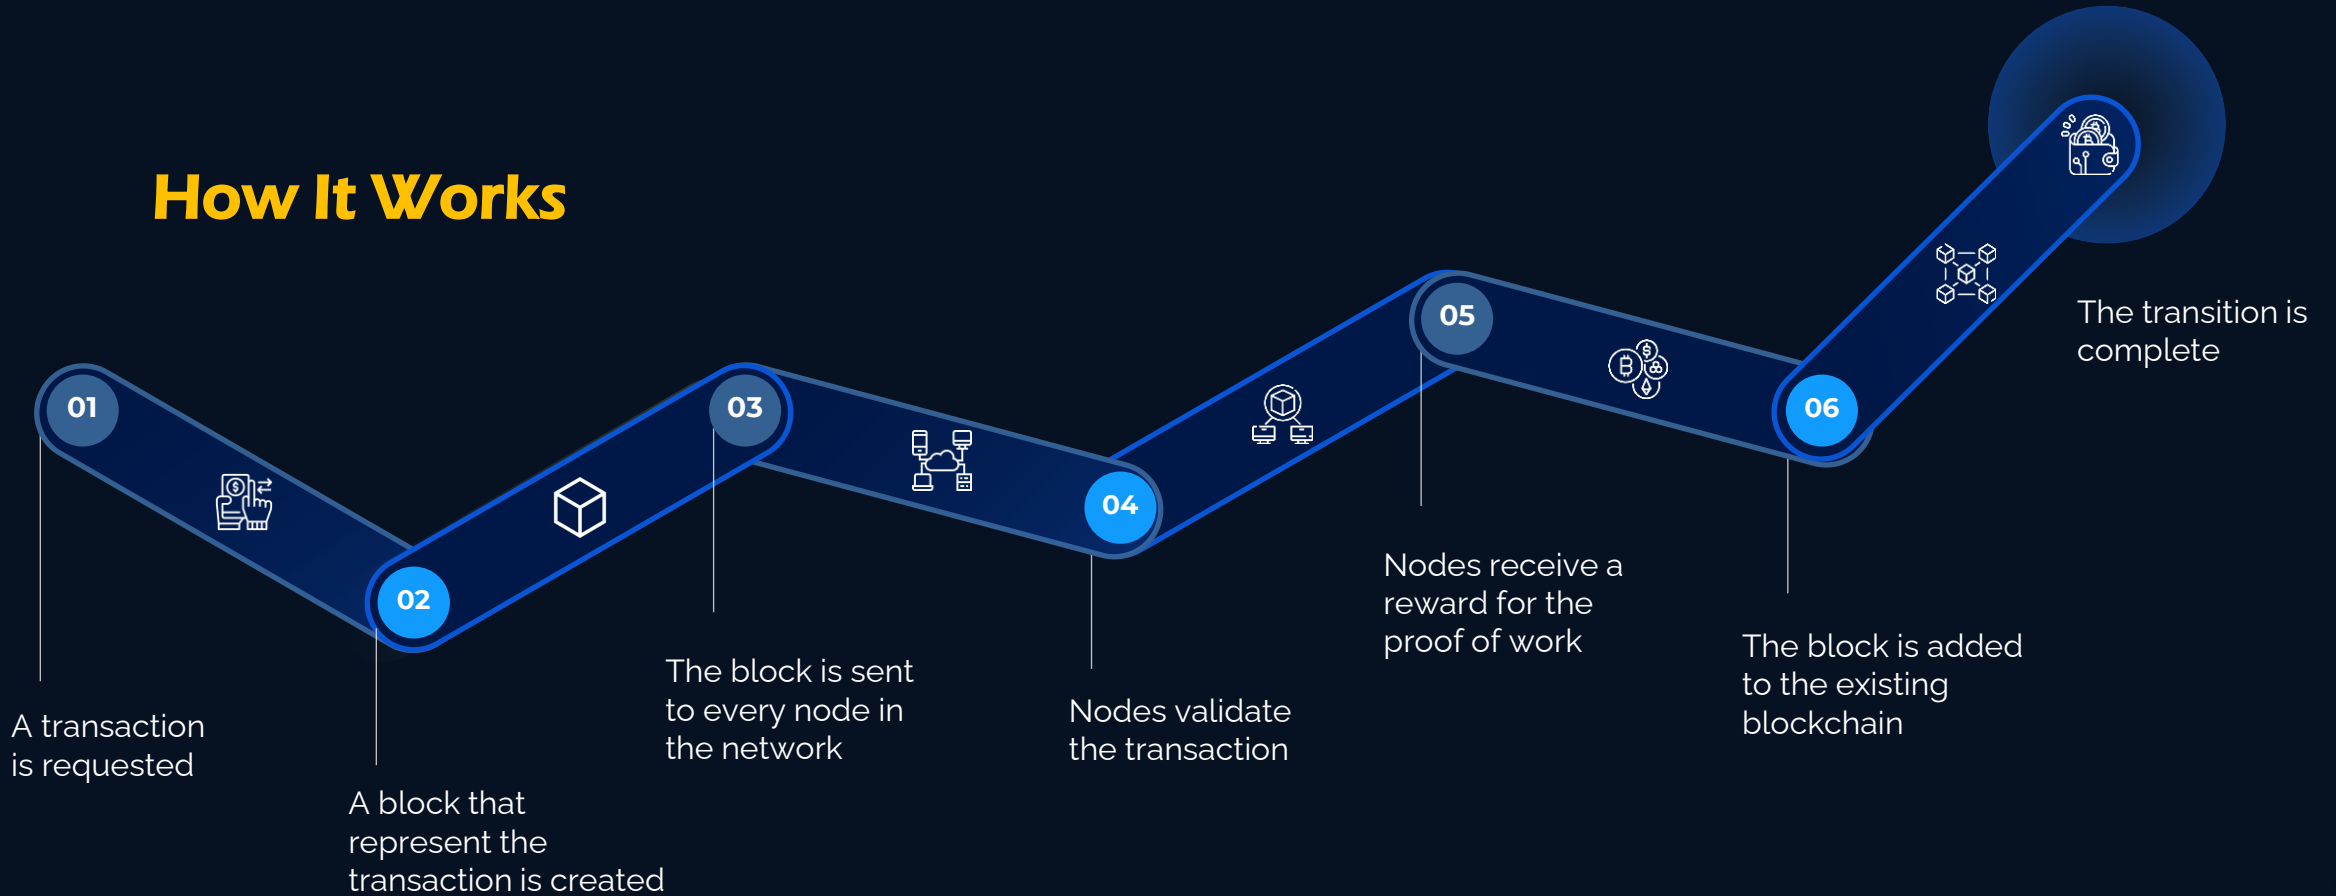

NODES For Daily Pay

Participants
Node Holders, Vote to create a Majority, once the Majority is attained, the rewards are distributed in regular intervals

WCL Noder's
The WCL Members NODE is an NFT that sits on the FINL Blockchain. It is easily sellable, transferable and willable and begins with a 9 Year Term Limit.

How It Works

01
A transaction is requested

02
A block that represent the transaction is created

03
The block is sent to every node in the network

04
Nodes validate the transaction

05
Nodes receive a reward for the proof of work

06
The block is added to the existing blockchain

The transition is complete

Collaborator

Canada

USA

Japan

South Korea

Hong Kong

Australia

Participants

Korea, Japan, Australia, etc. Development and marketing through global network

FDC (finl data center)

FINL is an FINL that maintains a high-speed network with basic participating nodes for fast speed.

Introducing Gpoint ...

With The Benefits From The Community Such As, Reward Mileages, Affiliated Local Shops, GPoint Coupons And Much More To Be Introduced, The GPoint Population Will Be Expanded Rapidly.

GPoint will satisfy common users, both sellers & buyers, who are reluctant to use mobile payment in their everyday lives such as, shopping, traveling and so on.

1 GPOINT = 1 USD

Master Your Crypto

"KNOWLEDGE IS POWER!"

WCL Travel Club

travel.Wcl.travel

The most robust travel booking engine plugged into the largest inventory of flights, hotels & resorts, cars, cruises, vacation rentals and excursions

Offering True Value and Luxury 5 Star Travel at 2 Star Prices!

Optional Subscription:
49.95 GPoints / Month

Introducing

With **GPOINT Market**, You Can Enjoy:

Multi vendor affiliated
program to maximize earning

3

Up to 50% discount for
selected Gdeal products

**2**

More convenient
GPcoupons

4

More than 300 products
listed on market

1

A Variety of % earned
when shopped at
GPointmarket

5

GPoint Affiliate Marketing

Vendors Are Available To Join The GPointmarket Seller Program

Affiliate business

The affiliate market is growing steadily. Spending only in U.S. the market is expected to rise to $8.2 billion by 2022. Customers purchase products & services with debit cards or GPoints

Purchase transaction

With leveraging your earned GPoints, we make product purchasing online convenient and flexible using GPoint debit card.

VIP Social Media Marketing Services Are Available To GPoint Affiliate Business Owners

Consumer shopping

Smartphones are the shopping malls of the millennial age. Consumer shoppers online will increase to 230 million people by 2021 with the U.S. leading the e-commerce market.

Affiliates share their profit with WCL members

PROFIT SHARING

A network of businesses that have the same goals are seeing profits by sharing market products and services from a global scale.
