QUANTUM DNA COURSE

**THE FIRST COURSE OF ITS KIND AIMED AT HUMAN
EVOLUTION.**

Quantum DNA Course

Description

Quantum DNA, also known as the Algorithm of Creation, is a groundbreaking scientific discovery developed over more than 35 years of rigorous research. It is based on space-time laws and principles that have until now been unknown to humanity. This innovative technology allows for an unprecedented analysis of human behavior and all existences in the universe, offering a level of knowledge beyond any existing technology. In other words, the Quantum DNA is an information tool that can solve any kind of problem and acts as an accelerator of science and technology.

The time has come to offer all this knowledge to humanity, along with the secrets to obtaining various models or algorithms that can serve as templates for individuals, companies, civil and military organizations, political parties, governments, events, occurrences, procedures, as well as organs, cells, molecules, atomic structures, and down to the deepest visualization of the unknown side of quantum physics.

Student Profile

- The course is aimed at university students, both those who have already completed their degrees and those who are still in the process.
- The preferred fields of study are exact and applied sciences. However, no other university degrees will be excluded, as there is a system parameter that allows the acceptance of a person regardless of the degree they have pursued.
- A particularly desirable trait in students is a predisposition for debate and rigorous analysis on topics such as religion, metaphysics, and philosophy.

All applicants will be filtered through our intelligent system, which will select them based on established considerations and parameters, which will, in turn, be topics covered in the course.

Methodology

Virtual or In-Person Format

The course can be conducted in-person or virtually. For virtual sessions, any online platform can be used that allows the instructor to share presentations and documents while also providing instant chat or voice communication.

Language

The official language is **Spanish**, unless the institution provides translation services into other languages.

Instructor

The course instructor is the independent scientist and discoverer: Lic. Juan Carlos Pérez Velázquez.

For more information about his professional background, visit his website www.matrizxl.com.

Duration

The complete course lasts 5 years and can be divided into three sequential parts: Quantum DNA Course Part 1, Part 2, and Part 3. The first two parts last 2 years each, and the third lasts 1 year. Only in the final part will all the secrets be revealed.

Schedule

We recommend weekend classes—Saturdays and Sundays, from 8 AM to 5 PM—to accommodate professionals who work on weekdays. However, a weekday schedule can also be considered.

To attend the final part of the course (Part 3), students must present certification for the two previous courses and be registered in our database.

What will be offered in the course?

1. All the knowledge related to the scientific discovery made in 1998 by the independent scientist Juan Carlos Pérez Velázquez.
2. The Laws, Properties, and Space-Time Principles governing all creations in the universe.
3. The knowledge of the **Quantum DNA of Creation**, also known as the **Algorithm of Creation***.
4. The literary support that documents all the findings developed from this discovery, a documentation that has taken more than 35 years of intense and rigorous work.
5. The tools to analyze the behavior of any existence, event, procedure, or occurrence of any nature.
6. The secrets that allow tracing the Quantum DNA of Creation or Algorithm of Creation.
7. The 3 technological tables showing different lines of research and technological development in search of proper human evolution.
8. The platform of Lego chemistry pieces, which will serve as the basis for establishing molecular creations that provide definitive answers to any biological problem.
9. Full-capacity training for students to become true behavior analysts of any event, occurrence, or process based on absolute scientific rigor.
10. Full-capacity training for students in tracing the Quantum DNA of Creation itself.
11. The procedure to establish the algorithm that definitively and uniquely identifies any person, company, entity, political party, government, projects, businesses, events, occurrences, procedures, methodologies, techniques, concepts, ideas, atomic structures, molecules, cells, organs, territories, villages, regions, provinces, countries, among millions of other possibilities.
12. The tool that will serve as a necessary guide or orientation for world specialists in their search for absolute truth in the pursuit of humanity's development.
13. The literary support consisting of 13 books and a catalog that validate this new science formally called **Genetic Vibration****.
14. The content that will be fundamental to the creation of the mother computer, a matrix of an intelligent digital support system that will think for itself.
15. Preparing students to become intermediaries between Quantum DNA (the program of creation) and human beings.
16. The first course of its kind aimed at human evolution.

Important: Any manifestation of pseudosciences, metaphysics, or relative truths is rejected.

**The term "creation" refers to all materialized existence in the universe resulting from evolution and should not be confused with any creationist theory.*

***Genetic Vibration: Vibration due to the symbology that determines the constant presence of an element; genetic due to and from the genesis of creation. Genetic vibration: Elements constantly present since the beginning of creation.*

About Quantum Solutions Partners

Quantum Solutions Partners offers unique and innovative scientific-based consulting services to individuals, companies, governments, political parties, and institutions. We are the first company tasked with establishing the foundations of the Quantum DNA course worldwide.
