

PROJECT 2019

We had our first service in this building in Easter, 2000, so, as you can see, our building will soon be 20 years old and just like anything (or anyone) else, things are starting to wear out.

We recently asked our Ministry Leaders to take an assessment of the areas they are responsible for and let us know of any repair, improvement, upgrades that needed to be done and what the cost would be.

We have named this program... “Operation 2019” and we received input from several areas that needed our attention:

Our building is not the only thing that is 20 years old, so is all our **Sound Equipment...** and believe me, we have been patching and patching on that system for a long time. This area was our largest need for upgrades

Our **phone systems** is almost in as bad of shape and is 20th century technology

A need for additional **storage** has become very evident if you look in some of our rooms where things are being stored and this takes away from our usable space (we have two new storages areas in the back.

Most of the equipment and games for our **youth** have been patched and patched until we just can't use them, and we also needed curriculum for our new Jr. High Classes

Our **Children's** KFC Classrooms are in dire need of repair and refurbishment

As for **Grounds**, our North Drive will soon need to be re-graveled

And last but certainly not least, we are investing in a camera security system that will soon be installed.

All these projects together add up to a total of \$25,000 needed to complete all these tasks. In order to accomplish this, we as a church acquired a loan from our local Bank and we wanted to inform you as our congregation as we move forward.

Again, we are calling this program “Operation 2019” and hope to complete these tasks in a timely manner.

If your desire is to help in repaying this loan, we only ask two things. That your gift be over and above your normal tithe and you mark any donations for "Project 2019"

If you have any questions about this program, please don't hesitate to ask anyone in the leadership.

Thank You

The Leadership
