

Dave Gillmor

My wife and I have been members of the Mountains Springs Water Corp since 2011, our address is at 401 Bottle Bay Road. I have currently served on the board since 2014. My objective has been keeping cost reasonable while anticipating for growth and still consider preventive maintenance to keep our system running smoothly. I'm available as a contact for any problems or questions at 208-920-9000.

My experience - General Contractor, Project Manager Estimator for commercial and industrial projects. Experience in design build projects and working with subcontractors. Worked with Mountain Springs Water for nine years. Designed addition to pumphouse and supervised excavation and concrete work.

I look forward to continuing serving as a Board Member of Mountain Springs Water Corporation.
