Winter has arrived and it's a great time to start a new project or take a class. Check out the schedule of classes and stop by the shop to see the samples. We have current fabric lines from Edyta Sitar and Lori Holt's **Bee Happy** by Riley Blake to inspire you. We have kits for Lori Holt's Bee Happy quilt and Gray Sky Studios **Floral Menagerie**. See below for more information for both projects. We also have kits for other quilts that you see hanging in the shop. Be sure to ask about them when you stop in.

If you are interested in learning some basic piecing techniques check out the table runner classes. Each class will focus on a technique such as, quilting as you sew, making half square triangles, connector corners, and fast flying geese. These are great classes for beginners and a great way to learn piecing techniques without committing to a large project. The first 3 are scheduled and there will be more to come.

Stop in or call to schedule one or more classes. Let us know if there is something you are interested in learning and we'll see about scheduling a class. And make sure you check out our **website** and **Facebook** page to find out about new items, impromptu classes, pictures of class projects, and specials.
