

# SF WEEKLY'S PICK OF THE WEEK

**Soma Holiday's** lyrics capture the doldrums drowning the twentywhatever generation ("It's the day after day . . . It's all the same"), but their music takes you to a sweeter plane, where you can float beneath marmalade skies, soar on a VU heroin rush or be mesmerized by Ride-like Arabian psychedelia. Soma Holiday rocks like a 4AD band and vocalizes like the Motels — just what the doctor ordered. Their self-titled CD is available locally, and very soon they will be as well. Check *SF Weekly* listings for upcoming dates.
