

Wellness Whole-Body MRI Screening (Launch Pricing \$1999 Reg \$2,400)

Offered by Body Concepts in Partnership with a State-of-the-Art Imaging Center

We're excited to introduce our new Wellness Whole-Body MRI Screening—a cutting-edge, non-invasive, and radiation-free way to take charge of your health. Through our partnership with a leading local imaging center, you can now access advanced technology designed to detect early signs of disease before symptoms appear.

Why Choose Whole-Body MRI Screening?

In just 50 minutes, the ultra-wide bore 3T MRI captures high-resolution images from head to pelvis—offering one of the fastest and most comfortable whole-body MRI experiences available in the area.

Key Benefits

-  Proactive Care – Detect potential health issues early, before symptoms arise
-  Radiation-Free – No ionizing radiation (unlike X-rays or CT scans)
-  Fast & Comfortable – Quick scan time with extra room for your comfort
-  Expert Oversight – Images reviewed by a board-certified radiologist
-  Peace of Mind – A full-picture view of your internal health—all in one visit

What Can Be Detected?
