Educational Program:

A preschool that combines basic academic skills with socialization.

At the Great Days children learn through a combination of structured activities and exploratory play. Staff set learning goals for each student in reading, math, and writing. Some of each day's activities help children achieve these goals. Students are informally assessed several times a year and the results reported to parents. What follows is a sample of the school's goals. For additional details, please refer to the parent handbook for a complete document.
