STATEMENT OF NEED AND TARGET AUDIENCE: A faculty of physicians, distinguished as teachers and oncologists, will share their knowledge and experience with attendees at this two-day seminar. The course is designed to give the practicing physician a review of the current treatment management of common malignancies.

CONFERENCE LOCATION AND ACCOMMODATIONS: The conference will be held in the Sammons Wing at Asheville's Grove Park Inn and will begin on Friday, October 21st with registration and conclude on Saturday, October 22nd. Those wishing overnight accommodations are asked to make their own reservations with a hotel of their choice. Rooms have been blocked at the Grove Park Inn under the name of Fall Foliage Cancer Conference, Group Code **10201628THANNUA**, however, they go quickly. October is a popular vacation month in the Asheville area, so early reservations are essential. To phone the Grove Park Inn directly, call (828) 252-2711 or (800) 438-5800. Additional accommodations are available. For more information, please visit www.cceinc.org.

TUITION: The registration fee includes tuition, continental breakfast, lunch, reception, refreshment breaks and syllabus. Please make checks payable to: Charlotte AHEC.

ACCREDITATION STATEMENT: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Carolinas HealthCare System/Charlotte AHEC and Community Cancer Education, Inc. The Carolinas HealthCare System/Charlotte AHEC is accredited by the ACCME to provide continuing medical education for physicians.

CREDIT STATEMENT: The Carolinas Healthcare System/Charlotte AHEC designates this live activity for a maximum of **10 AMA PRA Category 1 Credit(s)**[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

COMMERCIAL SUPPORT STATEMENT: This CME activity is supported in part by educational grants; a complete list of supporters will be published in the course syllabus.

DISCLOSURE: The Carolinas Healthcare System/Charlotte AHEC adheres to the ACCME standards regarding industry support of continuing medical education. Disclosure of faculty and planning committee members in regards to commercial support relationships, if any, will be made known at the activity.

AMERICANS WITH DISABILITIES ACTS: If you need any auxiliary aides or services identified in the Americans with Disabilities Act in order to attend this activity, please contact Tamara Smith-Tillman by telephone at 704-512-6534 or by email at Tamara.Tillman@carolinashealthcare.org. This request must be received 7 days prior to this activity.

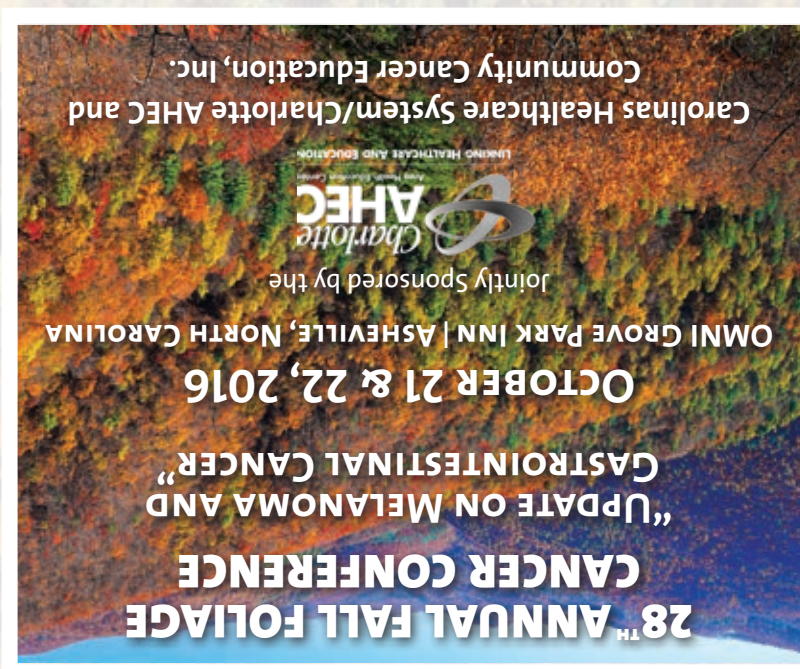

ASRT: This activity has been approved for Category A credits with the American Society of Radiologic Technologists.

AAPA: This activity is approved for 10.00 AAPA Category 1 credits. Physician assistants should only claim credit commensurate with the extent of their participation.

CANCELLATION: A written notice of cancellation is required to receive a refund. There is a non-refundable processing fee of \$75 for all cancellations received 15 days or more prior to the start of the activity. No cancellations will be accepted less than 15 days prior to the program.

Directions to The Grove Park Inn:
Take I-240 to Charlotte Street (Exit 5-B),
go north on Charlotte Street 0.5 mile,
turn right on Macon Avenue.
Go 0.8 mile to entrance on left.

Kavita Sarin, MD, PhD

Clinical Assistant Professor, Dermatology

Stanford Cancer Institute

Stanford University Medical Center, Stanford, CA

LEARNER OBJECTIVES:

At the conclusion of this activity, participants should be better able to:

1. Explain recent advances in immunotherapy in the management of melanoma.
2. Discuss updates in surgical techniques for the melanoma patient.
3. Summarize the treatment options for managing melanoma with high dose radiation therapy.
4. Evaluate the use of chemoradiation in the management of gastroesophageal cancers.
5. Explore data supporting genetic evaluation in colorectal screenings and how to manage patients diagnosed with lynch syndrome.
6. Review stereotactic body radiation therapy for the treatment of liver metastases.
7. Describe the recent advancements in treating gastrointestinal cancer with Immunotherapies.

FRIDAY, OCTOBER 21, 2016

Cancer.

Assistance. 21st Century C.A.R.E. provides patients immediate financial assistance for incidental expenses related to active cancer treatments. This allows the patient to put his/her focus where it belongs – on beating the disease.

The eligible patient must be referred by a physician to be considered for assistance. Applications are processed without delay. Once the application is approved, we can then offer patients financial assistance for incidental expenses related to: transportation to and from treatments, follow-up visits related to cancer-care, childcare during treatment, temporary housing due to geographical distance from the treatment center, medical supplies and much more.

Research.

We are proud to play a role and have pooled resources with prestigious institutions like Harvard Medical School on vital cancer research. 21st Century C.A.R.E. is also cooperating with the Radiation Therapy Oncology Group, a research organization funded by the National Cancer Institute, in the search for a cure. Working with a variety of groups allows more research to be done in all categories of oncology including: medical oncology, surgical oncology, pediatric oncology, gynecological oncology and radiation oncology.

Education.

Cancer education is crucial to the prevention of cancer. That is why we reach out to the community to educate. We actively participate in Community Health Fairs and provide free screenings for breast, prostate, skin and other cancers. We can even provide noted physicians for speaking engagements and lecture series.

In addition to educating the community, we provide emotional support groups for those affected by cancer. Our meetings are led by a Master's level counselor with more than ten years experience in facilitating cancer support groups. By learning you are not alone in dealing with cancer, you can become empowered, get insight on how to manage the disease and ultimately take control over it.
