Statement of Need and Target Audience: A faculty of physicians, distinguished as teachers and oncologists, will share their knowledge and experience with attendees at this two-day seminar. The course is designed to give the practicing physician a review of the current treatment management of common malignancies.

Conference Location and Accommodations: The conference will be held in the Sammons Wing at Asheville’s Grove Park Inn and will begin on Friday, October 20th with registration and conclude on Saturday, October 21st. Those wishing overnight accommodations are asked to make their own reservations with a hotel of their choice. Rooms have been blocked at the Grove Park Inn under the name of Fall Foliage Cancer Conference, Group Code 101972163THANNUAL, however, they go quickly. October is a popular vacation month in the Asheville area, so early reservations are essential. To phone the Grove Park Inn directly, call (828) 252-2711 or (800) 458-5800. Additional accommodations are available. For more information, please visit www.cceinc.org.

Tuition: The registration fee includes tuition, continental breakfast, lunch, reception, refreshment breaks and syllabus. Please make checks payable to: Charlotte AHEC.

Accreditation Statement: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Carolinas HealthCare System/Charlotte AHEC and Community Cancer Education, Inc. The Carolinas HealthCare System/Charlotte AHEC is accredited by the ACCME to provide continuing medical education for physicians.

Credit Statement: Carolinas HealthCare System/Charlotte AHEC designates this live activity for a maximum of 11 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Commercial Support Statement: This CME activity is supported in part by educational grants; a complete list of supporters will be published in the course syllabus.

Disclosure: Carolinas HealthCare System/Charlotte AHEC adheres to the ACCME standards regarding industry support of continuing medical education. Disclosure of faculty and planning committee members in regards to commercial support relationships, if any, will be made known at the activity.

Americans with Disabilities Act: If you need any auxiliary aids or services identified in the Americans with Disabilities Act in order to attend this activity, please contact Tamara Smith-Tillman by telephone at 704-512-6534 or by email at Tamara.Tillman@carolinashealthcare.org. This request must be received 7 days prior to this activity.

AAPA: Carolinas HealthCare System/Charlotte AHEC has been authorized by the American Academy of Physician Assistants (AAPA) to designate AAPA Category 1 credits for activities designed primarily for its own learners and other learners who provide care to veterans. This activity is approved for 11.00 AAPA Category 1 credits. Physician assistants should only claim credit commensurate with the extent of their participation.

ASRT: This activity has been approved for Category A credits with the American Society of Radiologic Technologists.

Cancellation: A written notice of cancellation is required to receive a refund. There is a non-refundable processing fee of $75 for all cancellations received 15 days or more prior to the start of the activity. No cancellations will be accepted less than 15 days prior to the program.
LEARNER OBJECTIVES:
At the conclusion of this activity, participants should be able to:
1. Discuss advances and emerging radiation therapies in the treatment of prostate cancer.
2. Evaluate the role of using brachytherapy in the treatment of advanced prostate cancer.
3. Define recent developments in prostate cancer therapy that improve patient outcomes.
4. Explore surgical options in the management of prostate cancer.
5. Describe advancements in therapies for the treatment of triple negative breast cancer.
7. Identify recent advancements in treating HER2+ breast cancer.

FRIDAY, OCTOBER 20, 2017

Continental Lunch, Sammons Wing, Heritage Ballroom B

4:00 pm
Continental Lunch, Sammons Wing, Heritage Ballroom B

Cancer.

Assistance. 21st Century C.A.R.E. provides patients immediate financial assistance for incidental expenses related to active cancer treatments. This allows the patient to put their focus where it belongs—on beating the disease. The eligible patient must be referred by a physician to be considered for assistance. Applications are processed without delay. Once the application is approved, we can offer patients financial assistance for incidental expenses related to transportation and from treatments, follow-up visits related to cancer-care, childcare during treatment, temporary housing due to geographical distance from the treatment center, medical supplies and much more.

Research. We are proud to play a role and have pooled resources with prestigious institutions like Harvard Medical School on vital cancer research. 21st Century C.A.R.E. is also cooperating with the Radiation Therapy Oncology Group; a research organization funded by the National Institute of the National Institute for the study in a cure. Working with a variety of groups allows more research to be done in all categories of oncology including: medical oncology, surgical oncology, pediatric oncology, gynecological oncology and radiation oncology.

Education. Cancer education is crucial to the prevention of cancer. That is why we reach out to the community to educate. We actively participate in Community Health fairs and provide free screenings for breast, prostate, skin and other cancers. We can even provide noted physicians for speaking engagements and lecture series.

In addition to educating the community, we provide emotional support groups for those affected by cancer. Our meetings are led by a Master’s level counselor with many more than ten years experience in facilitating cancer support groups. By learning you are not alone in dealing with cancer, you can become empowered, get insight on how to manage the disease and ultimately take control over it.
