## 21<sup>ST</sup> CENTURY C.A.R.E.

A Foundation for Cancer Assistance, Research & Education  
Fighting cancer together with 21st Century Oncology, one patient at a time.

21<sup>st</sup> Century C.A.R.E. is an organization dedicated to cancer patients. We were founded in 1996 and have been growing ever since. Our mission is to provide financial assistance to cancer patients in need, provide cancer education at the community level to patients, cancer care providers and the general public, to support cancer research and to conduct cancer screenings.

Every year we go into the community to conduct a number of screening programs, including skin, head & neck, colorectal, and prostate cancers. Besides the Fall Foliage Conference we also hold community based educational programs around the country. Our popular financial assistance program provides help for cancer patients in need for expenses such as transportation to their doctor appointments, groceries while under treatment, medical supplies, temporary housing, child care, and other incidental expenses related to cancer care. Our belief is that by not having to worry about these necessities, cancer patients can concentrate on what is really important-beating their disease.
