### Coach Evan Robinson with wrestlers Guy and Matt

Coach Evan Robinson came to our club with wrestlers Guy and Matt today. The wrestling team has had a great season with most of the state finalists coming back next year. Coach is happy with the depth of his team, including the girls team. The wrestling team is also doing really well at school with a total team grade point average of 3.8. Matt has a GPA of 4.67 and will finish high school with 2 years of college already completed. He is looking at Florida Tech studying aerospace and mechanical engineering. Guy is looking at Keiser studying marketing, accounting and continuing his wrestling. Many of these athletes that have graduated have been extremely successful in life showing that the coaching here is more than just winning games!
