

In response to some fueling incidents that have recently occurred within the industry, we are **mandating** where we will be allowing the use of **Fuel Towers and Pressurized Fueling** systems for the Baja Nevada event. These types of fueling systems will **only** be allowed at the following Pit locations:

### **Day 1**

Pit 2 – Omni Station @ Race Mile 64

Pit 4 – Cottontail @ Race Mile 132

Pit 6 – Tonopah @ Race Mile 193

Pit 7 – Klondike @ Race Mile 258

### **Day 2**

Pit 8 – Millers Rest Stop @ Race Mile 335

Pit 10 – Blaire Junction @ Race Mile 445

Pit 11 – Redlich @ Race Mile 473

Pit 13 – Millers @ Race Mile 581

Any use of these forms of fueling outside of these **8 locations** will result in a penalty of **Disqualification**.

**Dump cans** may be used in any of the Baja Nevada 13 Pit areas.

Legacy Race Officials and Staff will be monitoring all fueling checking that all safety measures are being followed, proper safety gear is being worn, fire extinguisher are correct size, correct classification and are easily accessible within your pit area. See Legacy Rule Book **Pits** (pages 19-21) for Pit Rules and clarification.
